

# SPECIAL JOINT CUYAMA BASIN GROUNDWATER SUSTAINABILITY AGENCY BOARD OF DIRECTORS AND STANDING ADVISORY COMMITTEE MEETINGS

#### **Board of Directors**

Derek Yurosek Chair, Cuyama Basin Water District Lynn Compton Vice Chair, County of San Luis Obispo Das Williams Santa Barbara County Water Agency Cory Bantilan Santa Barbara County Water Agency Glenn Shephard County of Ventura Zack Scrivner County of Kern Paul Chounet Cuyama Community Services District George Cappello Cuyama Basin Water District Byron Albano Cuyama Basin Water District Jane Wooster Cuyama Basin Water District Tom Bracken Cuyama Basin Water District

#### **Standing Advisory Committee**

Brenton Kelly Chair Brad DeBranch Vice Chair Louise Draucker Jake Furstenfeld Joe Haslett Roberta Jaffe Mike Post

#### **AGENDA**

June 25, 2020

Agenda for a meeting of the Cuyama Basin Groundwater Sustainability Agency Board of Directors to be held on Thursday, June 25, 2020 at 4:00 PM. *Due to COVID-19 pandemic restrictions and resulting suspension of certain components of the Brown Act per Executive Order Nos. N-25-20 and N-29-20, this meeting will be a remote-only meeting*. To hear the session live call +1 (872) 240-3412, 711642709# or logon to <a href="https://global.gotomeeting.com/join/711642709">https://global.gotomeeting.com/join/711642709</a> to view meeting materials.

The order in which agenda items are discussed may be changed to accommodate scheduling or other needs of the Committee, the public or meeting participants. Public comments should be emailed to Taylor Blakslee at <a href="mailto:tblakslee@hgcpm.com">tblakslee@hgcpm.com</a> by close of business on Wednesday, June 24, 2020 to assist in facilitating this remote meeting, but may still be provided at the meeting.

- 1. Call to Order
- 2. Roll Call
- 3. Pledge of Allegiance
- 4. Approval of Minutes
  - a. May 6, 2020 Regular Board Meeting
- 5. Standing Advisory Committee Meeting Report
- 6. Groundwater Sustainability Plan

- a. Discussion on Evapotranspiration Analysis for FY 20-21 Groundwater Extraction Fee
- b. Approval of Items for Management Area Delegation
- c. Update on Monitoring Network Implementation
- d. Approval of CBGSA Monitoring Network Access Agreement
- e. Report on Coordination with Counties
- f. Report on Public Comments to DWR
- 7. Groundwater Sustainability Agency
  - a. Report of the Executive Director
  - b. Progress & Next Steps
  - c. Report of the General Counsel
- 8. Financial Report
  - a. Authorize Daniels Phillips Vaughn & Bock to Perform the Fiscal Year 2019-20 Financial Audit
  - b. Execute Task Order No. 6 with the Hallmark Group for Executive Director Services for the Fiscal Year 20-21
  - c. Execute Task Order No. 8 with Woodard & Curran for Technical Support Services for the Fiscal Year 20-21
  - d. Financial Management Overview
  - e. Financial Report
  - f. Payment of Bills
- 9. Report of the Ad Hoc Committee
- 10. Directors' Forum
- 11. Public comment for items not on the Agenda

  At this time, the public may address the Board on any item not appearing on the agenda that is within the subject matter jurisdiction of the Board.
- 12. Correspondence
- 13. Public Hearing Groundwater Extraction Fee (6 P.M.)
- 14. Set a Groundwater Extraction Fee for Fiscal Year 2020-21 and Authorize Invoicing of Landowners
- 15. Adjourn

## Cuyama Basin Groundwater Sustainability Agency Board of Directors

May 6, 2020

#### **Meeting Minutes**

#### PRESENT:

Yurosek, Derek – Chair
Compton, Lynn – Vice Chair
Albano, Byron
Bantilan, Cory
Bracken, Tom
Cappello, George
Chounet, Paul
Christensen, Alan
Shephard, Glenn
Wooster, Jane
Williams, Das
Beck, Jim – Executive Director
Hughes, Joe – Legal Counsel

#### ABSENT:

None

#### 1. Call to Order

Chair Derek Yurosek called the meeting to order at 4 p.m. Hallmark Group Project Coordinator Taylor Blakslee provided direction on the meeting protocols to facilitate a remote-only meeting.

#### 2. Roll Call

Mr. Blakslee called roll (shown above) and informed Chair Yurosek that there was a quorum of the Board.

#### 3. Pledge of Allegiance

The pledge of allegiance was led by Chair Yurosek.

#### 4. SAC Member Terms and Vacancies

CBGSA Executive Director Jim Beck let the Board know they Board appointed SAC members to continue to serve on the SAC. Since that time, two SAC members let staff know they would not be able to continue serving. Additionally, there was a need to establish staggered, three-year terms for each of the SAC members. He reported that names were drawn to set the initial terms for the SAC members.

#### **MOTION**

Director Compton made a motion to accept the staggered three-year SAC terms and direct SAC identify candidates to fill the two vacancies. The motion was seconded by Director Chounet, a roll call vote was made and passed unanimously.

AYES: Directors Albano, Bantilan, Bracken, Cappello, Chounet, Christensen, Compton,

Shephard, Williams, Wooster, and Yurosek

NOES: None ABSTAIN: None ABSENT: None

#### 5. Approval of Minutes

Chair Yurosek opened the floor for comments on the March 4, 2020 CBGSA Board meeting minutes.

#### **MOTION**

Director Shephard made a motion to adopt the March 4, 2020 CBGSA Board meeting minutes. The motion was seconded by Director Compton, a roll call vote was made and passed unanimously.

AYES: Directors Albano, Bantilan, Bracken, Cappello, Chounet, Christensen, Compton,

Shephard, Williams, Wooster, and Yurosek

NOES: None ABSTAIN: None ABSENT: None

#### 6. Standing Advisory Committee Meeting Report

Vice Chair Brad DeBranch provided an update on the April 30, 2020 SAC meeting which is provided below:

#### "Standing Advisory Committee Report

Meeting: April 29th, 2020

Submitted to the CBGSA Board on May 6th, 2020 By: Brenton Kelly, SAC Chairperson Brad DeBranch, SAC Vice-Chair

The SAC maintained a full quorum throughout the teleconference meeting with 2 members absent. There were approximately 10 members of the public on the call. Jim Beck, Taylor Blakslee, Woodard & Curran (W&C), and Mary Currie were also present telephonically as was Anita Regmi from DWR. The meeting lasted approximately 1 hour and 15 minutes.

There were 4 main areas of discussion:

- 1) Update on SAC members and selection of terms.
- 2) Draft Annual Report Update
- 3) Monitoring Network Update
- 4) Newsletter considerations
- 1) The SAC was informed that Committee members Hilda Leticia Valenzuela and Jose Valenzuela have elected to no longer sit on the Standing Advisory Committee. There are now 2 vacant seats on the SAC that were intended to be filled by members of the Hispanic community. During the meeting staff randomly selected SAC members to fill 1, 2 and 3 year terms. The final selection is as follows:
- 1 Year Terms: Louise Draucker, Vacancy #1, Vacancy #2

- 2 Year Terms: Roberta Jaffe, Mike Post, Jake Furstenfeld
- 3 Year Terms: Brenton Kelly, Brad DeBranch, Joe Haslett
- 2) Brian Van Lienden of Woodard & Curran presented their recent accomplishments including the submittal of the GSP Annual Report to DWR prior to the deadline on April 1st.
- 3) Woodard & Curran presented further information on the Monitoring Network including the phased approach of setting up 100 representative wells into the network with the initial focus being groundwater levels. A Request for Proposal (RFP) was submitted in late April to several qualified contractors requesting quotes related to completing Phase 1 and Phase 2 of the monitoring network. Phase 1 has a completion timeline of June 30<sup>th</sup>, 2020. The RFP asked for that bids be submitted no later than May 5<sup>th</sup> so that the Staff can present the proposals to the Board at the May 6<sup>th</sup> Board meeting to consider action on selecting a contractor.

Woodard & Curran also briefed the SAC on the future groundwater quality sampling which will start to be implemented in FY 2020-2021. There was interest from the SAC in what time of year these samples will be taken as the TDS levels may measure higher or lower depending on when the sample is taken.

The SAC supports the ad-hoc committee's recommendation to continue with existing monitoring devices for subsidence present in the Valley and also using the Altamira dataset from DWR. If these datasets prove inaccurate in the future then alternative solutions may be considered. During an update from Woodard & Curran on GDEs, comments were made from the SAC that although monitoring GDEs in the western section is very important, the whole Basin should be considered, including important GDEs in the eastern section.

4) Received a summary from Mary Currie regarding the upcoming newsletter. In relation to the current pandemic, Mary and staff will look at additional ways of providing the newsletter to the public via social media and other electronic forms.

Aside from GSP related matters, there were comments from the SAC that included a request for SAC and Board meeting minutes to be distributed sooner due to meetings being held less frequently. Staff acknowledged the request and will consider this change in the future."

#### 7. Groundwater Sustainability Plan

Mr. Van Lienden provided an update on the GSP development, which is included in the Board packet.

#### a. Update on FY 20-21 Groundwater Extraction Fee

Mr. Blakslee reported on the process to calculate the groundwater extraction fee based on an evapotranspiration study to be performed by Land IQ. He provided an overview of the process that was developed with the Groundwater Extraction Fee Ad hoc, which is included in the Board packet. He also provided an update on the budget and schedule for these efforts.

SAC Member Haslett asked why this was not discussed at the April 30, 2020 SAC meeting. Mr. Beck reported that we do not typically review the more detailed financial and accounting details of the GSA and historical focus on technical items with the SAC.

#### **MOTION**

Director Wooster made a motion to set a public hearing on the groundwater extraction fee for June 25, 2020. The motion was seconded by Director Bracken, a roll call vote was made

and passed unanimously.

AYES: Directors Albano, Bantilan, Bracken, Cappello, Chounet, Christensen, Compton,

Shephard, Williams, Wooster, and Yurosek

NOES: None ABSTAIN: None ABSENT: None

#### b. Update on Long-Term Extraction Fee Policy

Mr. Beck provided an update on the Long-Term Extraction Fee Policy whose goal is to determine what the most equitable fee is moving forward. He reported that the ad hoc met several times and Legal Counsel Joe Hughes provided direction on groundwater rights. The ad hoc recognized it would take more time to develop a long-term fee structure and they were ok with proceeding forward with the current proposed evapotranspiration study for the Fiscal Year 20-21 fee but would continue to meet to develop a strategy for the next fee.

#### c. Management Area Administration and Project Development Strategy

Mr. Beck provided an overview of the management area administration delegation process. Chair Yurosek let the Board know he would appoint an ad hoc to work with staff to develop a potential list of items to recommend for delegation to the Cuyama Basin Water District.

#### d. Update on Monitoring Network

#### i. Groundwater Levels Monitoring

Mr. Van Lienden provided an update on the groundwater levels monitoring network which is provided in the Board packet.

#### ii. Groundwater Quality Monitoring

Mr. Van Lienden provided an update on the groundwater quality monitoring network which is provided in the Board packet.

#### iii. Subsidence Monitoring

Mr. Van Lienden provided an update on the subsidence monitoring network which is provided in the Board packet.

#### iv. Groundwater Dependent Ecosystems

Mr. Van Lienden provided an update on the groundwater dependent ecosystems which is provided in the Board packet.

#### e. Select Firm for Phase 1 and 2 Monitoring Network Setup

Mr. Blakslee provided an overview of the proposal received for set up and performing monthly groundwater levels for 100 wells. Four proposals were received (Daniels B. Stephens & Associates, Dee Jaspar & Associates, GSI, and Provost & Pritchard), and staff recommended selecting Provost & Pritchard as the lowest, responsive bidder.

#### **MOTION**

Director Christensen made a motion to select Provost & Pritchard to perform the setup for groundwater level at a cost not-to-exceed \$187,000 and provisions for reducing monitoring

activities as we proceed. The motion was seconded by Director Cappello, a roll call vote was made and passed unanimously.

AYES: Directors Albano, Bantilan, Bracken, Cappello, Chounet, Christensen, Compton,

Shephard, Williams, Wooster, and Yurosek

NOES: None ABSTAIN: None ABSENT: None

#### f. Approval of Monitoring Network Access Agreements

Mr. Blakslee reported that the Santa Barbara County Water Agency (SBCWA) owns several wells that are in the CBGSA proposed groundwater levels monitoring network. SBCWA requires an access agreement to allow monitoring and is provided in the Board packet for consideration of approval.

#### **MOTION**

Director Chounet made a motion to approve the monitoring access agreement with SBCWA. The motion was seconded by Director Shephard, a roll call vote was made and passed with a 93% vote.

AYES: Directors Bantilan, Bracken, Cappello, Chounet, Christensen, Compton,

Shephard, Williams, Wooster, and Yurosek

NOES: None ABSTAIN: None

ABSENT: Director Albano

#### g. Update on Prop 68 Grant Agreement

Mr. Blakslee provided an update on the successful award of the Prop 68 grant and noted that the grant agreement has been signed and has reached final approval. DWR regional representative Anita Regmi let the Board know that expectation of reimbursement will likely be 6 months.

#### h. Update on Newsletter

CBGSA Outreach Consultant Charles Gardner from the Catalyst Group provided an update on the newsletter which is provided in the Board packet.

#### 8. Groundwater Sustainability Agency

#### a. Report of the Executive Director

Mr. Beck reported that staff would be meeting with the counties to discuss how they are integrating SGMA with the county processes. He reported that we will be meeting with each of the four counties and will report back on this next month.

#### b. Progress & Next Steps

Mr. Beck provided an update on the near-term GSP schedule and accomplishments and next steps, which are summarized in the Board packet.

#### c. Report of the General Counsel

Nothing to report.

#### 9. Financial Report

#### a. Review the FY 20-21 Budget

Mr. Beck and Blakslee provided an overview of the draft Fiscal Year 20-21 budget and the updated cash flow, which was presented for Board approval.

#### **MOTION**

Director Bracken made a motion to approve the Fiscal Year 20-21 Budget. The motion was seconded by Director Compton, a roll call vote was made and passed unanimously.

AYES: Directors Albano, Bantilan, Bracken, Cappello, Chounet, Christensen, Compton,

Shephard, Williams, Wooster, and Yurosek

NOES: None ABSTAIN: None ABSENT: None

#### b. Review of CBGSA Voluntary Contribution Reimbursement

Mr. Beck and Blakslee provided an overview of the reimbursement available to CBGSA voluntary contributors, but due to potential cash flow issues requested reimbursement be deferred to the fall, and the Board was ok with this approach.

#### MOTION

Director Chounet made a motion to approve the reimbursement plan when the cash flow allows. The motion was seconded by Director Bracken, a roll call vote was made and passed unanimously.

AYES: Directors Albano, Bantilan, Bracken, Cappello, Chounet, Christensen, Compton,

Shephard, Wooster, and Yurosek

NOES: None ABSTAIN: None

ABSENT: Director Williams

### c. Execute No-Cost, Time Extension for Hallmark Group Task Order No. 4 for Development and Facilitation of a Groundwater Extraction Fee

Mr. Blakslee presented that Board with a no-cost, time extension for Task Order No. 4 for the development of a groundwater extraction fee. He reported that the costs for Task Order No. 4 will be part of the reimbursement for Prop 68.

#### **MOTION**

Director Cappello made a motion to approve a no-cost, time extension for the Hallmark Group Task Order No. 4 for the development of a groundwater extraction fee through June 30, 2020. The motion was seconded by Director Wooster, a roll call vote was made and passed unanimously.

AYES: Directors Albano, Bantilan, Bracken, Cappello, Chounet, Christensen, Compton,

Shephard, Wooster, and Yurosek

NOES: None ABSTAIN: None

ABSENT: Director Williams

#### d. Financial Management Overview

Mr. Blakslee provided an overview of the CBGSA's financial activities which is provided in the Board packet.

#### e. Financial Report

Mr. Blakslee provided an overview of the February 2020 and March 2020 financial reports, which are included in the Board packet.

#### f. Payment of Bills

Mr. Blakslee reported on the payment of bills for the months of February 2020 and March 2020.

#### **MOTION**

Director Bracken made a motion to approve payment of bills for the months of February and March 2020. The motion was seconded by Director Cappello, a roll call vote was made and passed with an 89% vote.

AYES: Directors Albano, Bantilan, Bracken, Cappello, Chounet, Christensen, Compton,

Shephard, Wooster, and Yurosek

NOES: None ABSTAIN: None

ABSENT: Director Williams

#### 10. Report of the Ad Hoc Committee

Nothing to report.

#### 11. Directors' Forum

Nothing to report.

#### 12. Public comment for items not on the Agenda

Nothing to report.

#### 13. Correspondence

Nothing to report.

#### 14. Adjourn

Chair Yurosek adjourned the meeting at 6:59 p.m.

-----

Minutes approved by the Board of Directors of the Cuyama Basin Groundwater Sustainability Agency the 3<sup>rd</sup> day of June 2020.

CUYAMA BASIN GROUNDWATER SUSTAINABILITY AGENCY

Chair: \_\_\_\_\_

ATTEST:

Secretary:

TO: Board of Directors

Agenda Item No. 6

FROM: Brian Van Lienden, Woodard & Curran

DATE: June 25, 2020

SUBJECT: Groundwater Sustainability Plan

#### <u>Issue</u>

Update on the Cuyama Basin Groundwater Sustainability Agency Groundwater Sustainability Plan.

#### **Recommended Motion**

None – information only.

#### **Discussion**

Cuyama Basin Groundwater Sustainability Agency (CBGSA) Groundwater Sustainability Plan (GSP) consultant Woodard & Curran's (W&C) GSP update is provided as Attachment 1.

## May-Jun Accomplishments

- Selected consultant and conducted County coordination meetings for groundwater levels monitoring
- DWR Approved applications for well installation by Technical Support Services
- Responded to DWR questions on GSP information
- Performed ET analysis for groundwater extraction fee hearing
- Developed CBGSA newsletter

TO: Board of Directors

Agenda Item No. 6a

FROM: Jim Beck, Executive Director

DATE: June 25, 2020

SUBJECT: Discussion on Evapotranspiration Analysis for FY 20-21 Groundwater Extraction Fee

#### Issue

Discussion on evapotranspiration analysis.

#### **Recommended Motion**

None – information only.

#### Discussion

The CBGSA adopted a groundwater extraction fee in November 2019 to fund administration of its groundwater management program and GSP. That fee was based on water use in 2019 and was to cover the calendar year 2020 period. After the CBGSA collected a majority of the fees, the CBGSA determined that the collected fees would not be sufficient to fully fund administration costs. The primary reason for this under collection was the difference in estimated water used in the Cuyama Basin over which the CBGSA spread the budget when setting the fee. The original modeling showed irrigated water use of 60,000 AF for 2019. Once land use was updated in late 2019, the model projection was revised to 47,000 AF. Another issue was that some landowners with meters reported water use using meters (a gross method) while those without meters provided estimates of irrigated use via crop factors that were provided which is a net calculation of water use.

To address the under collection, resolve the inconsistency between gross and net reporting methods and to streamline the fee process, in March 2020, the CBGSA Board set the fee using a fiscal year (rather than calendar year) using the results from an evapotranspiration (ET) study for water year 2019 conducted by Land IQ and determined the need for a supplemental fee in 2020. Below is a summary of the process to develop the ET analysis, which is described in the draft Fiscal Year 2020-21 Groundwater Extraction Fee Report.

To determine water use, Land IQ was contracted to analyze water consumption (ET) on a per parcel basis for the 2019 water year. Below is a summary of the analysis performed for determining the ET and precipitation for the Cuyama Valley Groundwater Basin. The "unit" for the final result is the estimated volume, in acre-feet, of groundwater consumption by parcel for all of irrigated land in the Cuyama Basin.

Agenda Item No. 6a Discussion on Evapotranspiration Analysis for FY 20-21 Groundwater Extraction Fee June 25, 2020

#### Data used:

- Crop Data data was compiled from various sources (included below) and utilizes the most recent and available crop data across the Basin. Please note that each data source references crop types from different years.
  - o Bolthouse and Grimmway Farms crop data for 2019.
  - o Grapevine Capital crop data from 2017.
  - Private landowners/all other most recent data are from 2016, which is the same data that was used in the GSP.
- Precipitation provided by Land IQ and provides precipitation in millimeters in raster format, as well as per parcel.
- Evapotranspiration provided by Land IQ, provides ET in millimeters in raster format, as well as per parcel.

#### Purpose of Analysis:

The goal of this analysis is to determine how much water was consumed on irrigated lands across the Cuyama Groundwater Basin. Each irrigator will be responsible for paying a certain amount per acre-foot of water pumped to irrigate cropland, as determined by the Cuyama GSA. Fees are distributed by parcel boundary (provided as GIS data), as provided by each of the participating counties. Fees do not apply to *de minimis* users.

#### **Summary of Calculations:**

The core of this analysis is two data sets that spatially cover the Cuyama Basin; precipitation and evapotranspiration (ET). Simply, the difference between the two for a given area (parcel) approximates the value of groundwater pumped to irrigate crops on that parcel.

For example, if it rains 20 inches during the water year (October through September) on a one-acre parcel, and ET on the parcel is 50 inches, then there has been 30 inches of applied water on those crops. In the Cuyama Basin, all water applied to crops is either precipitation or groundwater, and thus the 30 inches of non-precipitation water are assumed to be from groundwater pumping. Because our example parcel is one-acre, and there are 12 inches per foot, 2.5 AF of water have been consumed as crop ET.

#### Detailed Analysis Process Description:

The following is a detailed description of the process used to perform the analysis.

#### 1.1 Compile most recently available crop data

As described in the *Data Used* section above, three separate datasets existed for crop information. These were compiled into a single shapefile in GIS.

#### 1.2 Perform Intersect Analysis with parcel layer and Crop Layer

A intersect analysis was done with the parcel data to calculate the area (in acres) of each crop type for each parcel. Where multiple crop types were present in a single parcel, crop areas were combined. After additional processing in Excel, two values were calculated for each parcel: total acreage and total irrigated acreage.

Agenda Item No. 6a Discussion on Evapotranspiration Analysis for FY 20-21 Groundwater Extraction Fee June 25, 2020

#### 1.3 Process Land IQ precipitation and ET data

Precipitation and ET data were provided by Land IQ in raster format. ET raster data is provided with approximately 30-meter grids while precipitation data is provided in approximately 4-kilometer grids. Spatial analysis was conducted to find the median ET value and closest precipitation value for each crop. Where median ET values for crops were not available, the closest value was used. The weighted average of these values was then used to calculate the total ET and precipitation values for the irrigated portions of each parcel. Summing the total difference between the calculated ET and precipitation on irrigated portions of parcels in the Basin provides and estimated volume of total ET by irrigated crops.

#### 1.4 Merging ET and Precipitation Values to Parcel Acreages and Parcel Irrigated Acreages

Table information was exported out of GIS and matched with the associated ET and precipitation data in excel. Additional analysis was then conducted to calculate total acre-foot of crop ET for each parcel by total parcel acreage and irrigated acreage in each parcel.

To calculate the total crop acre-foot, the following calculations were performed for the full 2019 water year:

- 1. Convert precipitation from millimeters to inches
- 2. Get the difference between ET and precipitation ( = ET precipitation )
- 3. Replace all negative results with zero
- 4. Convert difference from inches to feet
- 5. Multiply by parcel acreage and irrigated acreage for each parcel to calculate both results

The resulting values are an approximation of the total AF of crop ET for the 2019 water year and are shown in Attachment 1.

## Discussion on Evapotranspiration Analysis for FY 2020-21 Extraction Fee

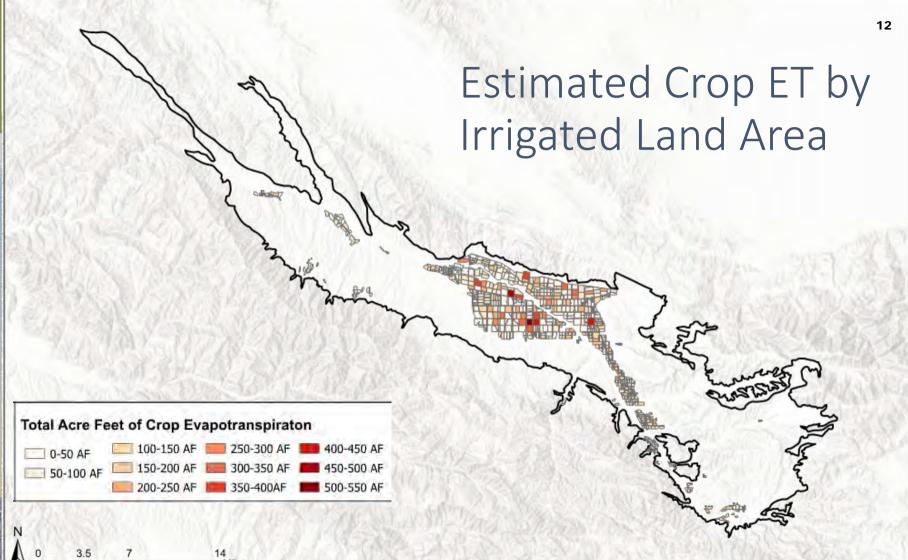

June 25, 2020

## Method for Estimation of Evapotranspiration

- Evapotranspiration (ET) estimated for irrigated land areas throughout the Basin using a Metric ET analysis
- Estimated precipitation was subtracted from ET estimate for each land area
- Irrigated land areas were then mapped to parcels to estimate ET by parcel

TO: Board of Directors

Agenda Item No. 6b

FROM: Jim Beck, Executive Director

DATE: June 25, 2020

SUBJECT: Approval of Items for Management Area Delegation

#### Issue

Approval of Items for Management Area Delegation

#### **Recommended Motion**

Approve item nos. 1 and 2 for management area delegation to the Cuyama Basin Water District as described in the June 25, 2020 agenda item no. 6b to the Board of Directors.

#### Discussion

At the May 6, 2020 Board meeting staff presented an overview of the delegation process to the Cuyama Basin Water District (CBWD) for the implementation of management actions and projects in the Central region management area which is provided as Attachment 1.

Chair Yurosek appointed a Management Area Delegation ad hoc (Directors Bracken, Compton, Williams and Yurosek) to discuss potential items for delegation to the CBWD. The ad hoc met on June 18, 2020 and reviewed a list of potential items to delegate to the CBWD. From this list—provided as Attachment 2—the ad hoc recommends delegating the below two items:

- 1. Implementation of Pumping Allocations in Central Basin Management Area
- 2. Development of Water Budgets for Individual Landowners

This recommendation is presented to the Board for consideration of approval. If approved by the Board, the CBGSA would send a letter to the CBWD with this request.

Attachment 1

## Management Area Delegation Process

May 6, 2020

## Management Area Administration

- In November 2019, the Board approved an agreement between GSA and District for administration of the central region management area.
- Delegation and Management Agreement allows GSA to authorize and delegate to District responsibility for implementing and enforcing within District's boundaries:
  - Any Measure; or
  - Any action under a Measure.
- Measure: A groundwater resource management and enforcement measure identified in the GSP.

## **Delegation Process**

- Delegation process:
  - 1. GSA identifies Measure(s) for delegation to District;
    - District may request delegation, but GSA not obligated to delegate
  - 2. District elects to accept (or reject) delegation;
  - 3. If District rejects delegation, then Measure remains with GSA.
- Financial:
  - District entitled to cost reimbursement from GSA extraction fees
  - But District must first show economic benefit or savings attributable to District performing the Measure.

### Next Steps

GSA Chair appoints ad hoc committee.

 Ad hoc committee will work with staff to identify potential Measures for delegation.

 Board will consider identified Measures at an upcoming Board meeting and take any desired action.

#### DRAFT

#### **CUYAMA BASIN GSA**

#### **Items for Potential Management Area Delegation**

June 18, 2020

- 1. Implementation of Pumping Allocations in Central Basin Management Area
- 2. Development of Water Budgets for Individual Landowners
- 3. Computation of Water Use for Management Area Landowners
- 4. Perform Level and Quality Monitoring for Wells within the Management Area
- 5. Perform Feasibility Study, Design, and Construction of Stormwater Capture Project within Management Area
- 6. Implementation of Downstream Water Transfers/Exchanges in Conjunction with Stormwater Capture Project
- 7. Perform Feasibility Study, Design, and Implementation of Cloud Seeding Project
- 8. Develop Adaptive Management Response Action in Management Area (After Cause is Identified by CBGSA and Action Determined by CBGSA Board)

DATE: June 25, 2020

SUBJECT: Update on Monitoring Network Implementation

#### <u>Issue</u>

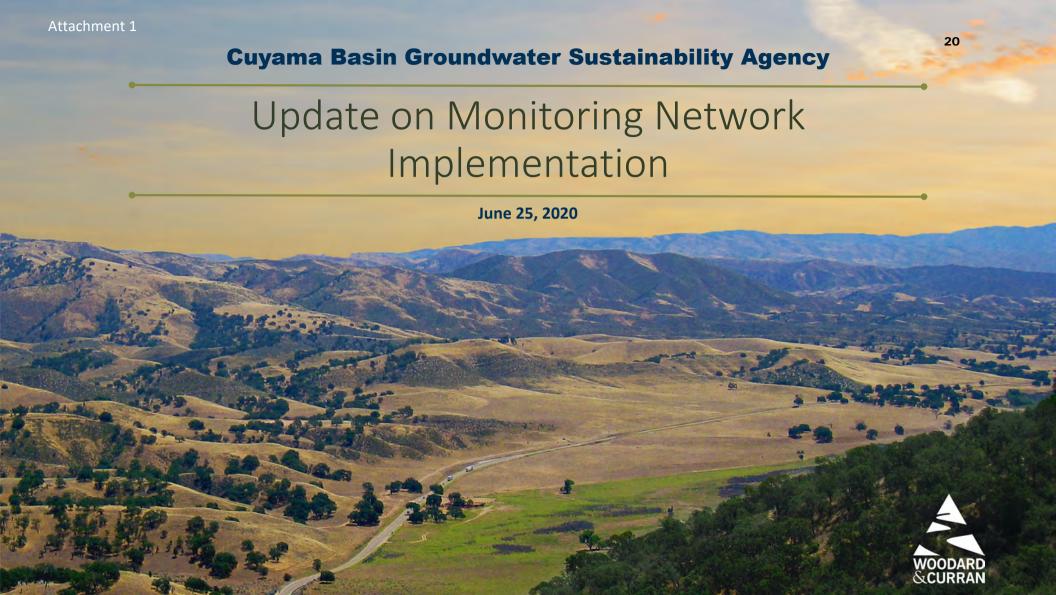

Update on Monitoring Network Implementation.

#### **Recommended Motion**

None – information only.

#### **Discussion**

An update on Cuyama basin monitoring network components is provided as Attachment 1.

### **Cuyama Basin Groundwater Sustainability Agency**

## Groundwater Levels Monitoring

June 25, 2020

# Groundwater Levels Monitoring Network Implementation

- Feb 6, 2019 Board approves the Groundwater Monitoring section of the GSP which specifies that the CBGSA will perform monthly monitoring for the 100 wells in its monitoring network.
- Jul 10, 2019 Board adopts the FY 19-20 budget which includes roughly \$30,000 for water level monitoring set up and \$30,000 for water quality monitoring set up.
- Dec 4, 2019 Board executes Task Order 7 with Woodard & Curran where they request to combine the budget authorization for water levels and quality (combined total of \$60k) to focus on setting up the monitoring network for levels.
- March 4, 2020 Board approves phased approach for groundwater levels monitoring well set up and for doing manual monitoring of groundwater levels in first year

## Groundwater Levels Monitoring Network Implementation – Status Update Monitoring Well Informa

- Manual monitoring of existing wells (100 wells)
  - Board approved selection of Provost & Pritchard in May
  - Coordination meetings conducted with counties
  - Well information and data templates developed
  - Well validation/data collection by P&P beginning this week

## Groundwater Levels Monitoring Network Implementation – Status Update

- Installation of new wells by DWR Technical Support Services
  - Application approved by DWR in May
  - Waiting on next steps from DWR
- Installation of Transducers with DWR Category 1 grant funding
  - CEQA documentation completed and provided to DWR for review
  - Well validation/landowner agreement process will commence once DWR finishes review

### **Cuyama Basin Groundwater Sustainability Agency**

# Other Cuyama Basin Monitoring in FY 2020-21

June 25, 2020

# Groundwater Quality Monitoring Network Implementation – FY 2020-21

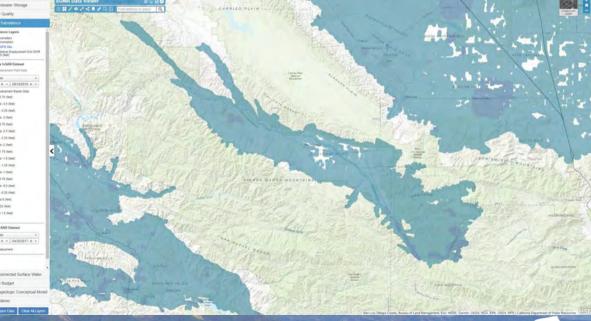

- GSP monitoring plan calls for TDS monitoring at 64 wells
- Monitoring network setup:
  - Coordination with existing monitoring entities and well owners
  - Field validation collect similar information to GW levels wells
- A single TDS measurement to be taken at each well during setup
- Evaluate options for monitoring network modifications, including:
  - Manual measurement vs instrumenting
     Monitoring well density and data gaps

## Subsidence Monitoring in FY 2020-21

- GSA will continue with current monitoring, including DWR Altamira dataset (see right)
- No installation of new equipment unless existing data shows an issue

### **DWR Altamira Dataset Screenshot**

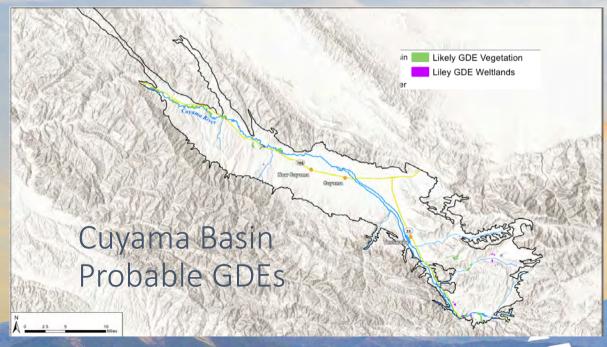

## Stream Gage Implementation – FY 2020-21

- 2 new streamflow gages will be installed by USGS using Category 1 grant funding from DWR
- Locations
  approved by the
  Board are shown
  to the right

## GDE Monitoring Implementation – FY 2020-21

- GSP recommended installing piezometers near GDE locations, especially in western portion of basin
- FY 2020-21 budget calls for analysis to identify promising locations for installation of piezometers in FY 2021-22

TO: Board of Directors

Agenda Item No. 6d

FROM: Joe Hughes / Jim Beck

DATE: June 25, 2020

SUBJECT: Approval of CBGSA Monitoring Network Access Agreement

#### Issue

Approval of CBGSA Monitoring Network Access Agreement

### **Recommended Motion**

Approve the Cuyama Basin Groundwater Sustainability Agency monitoring well access agreement as outlined in the June 25, 2020 Agenda Item No. 6d to the Board of Directors.

### Discussion

As part of the Cuyama Basin Groundwater Sustainability Agency (CBGSA) Prop 1 grant agreement, the CBGSA will be installing ten (10) transducers in volunteer wells in Cuyama as part of its monitoring network. Since this equipment will be owned by the CBGSA, a monitoring access agreement will be required with those landowners. The monitoring access agreement is provided as Attachment 1 for consideration of approval.

### MONITORING WELL ACCESS AGREEMENT

THIS MONITORING WEL	LL ACCESS AGREEMENT ( <b>Agreement</b> ) is made and entered
into by and between CUYAMA	BASIN GROUNDWATER SUSTAINABILITY AGENCY
(GSA) and	(Landowner), both of whom may be referred to individually
as a Part" and collectively as Parti	ies.

### **RECITALS**

- **A.** The GSA has adopted a Groundwater Sustainability Plan (**GSP**) to comply with the Sustainable Groundwater Management Act (**SGMA**). The GSA is responsible for implementing the GSP.
- **B.** SGMA requires the long-term monitoring of groundwater levels and water quality. To comply with this requirement, the GSA may need access rights from landowners within its boundaries to monitor groundwater elevations and water quality.
- **C.** Landowner's Land (as described and depicted in the attached Exhibit A, which is incorporated herein by reference) contains one or more groundwater wells located in the area for which the GSA is required to monitor for groundwater elevation and water quality monitoring activities
- **D.** The Landowner has agreed to grant the GSA limited access onto Landowner's Land, subject to the terms and conditions as set forth in this Agreement.

NOW, THEREFORE, the Parties are entering into this Agreement to allow the GSA to access the Landowner's Land and agree as follows:

### **AGREEMENT**

- 1. <u>Incorporation of Recitals</u>. The foregoing recitals are incorporated herein as terms and conditions of this Agreement.
- 2. <u>Right of Entry</u>. The Landowner grants to the GSA and its employees, agents, consultants, and contractors a non-exclusive year-round license to enter onto the Landowner's Land to obtain groundwater elevation and water quality data from the Landowner's well(s). Unless otherwise agreed to by the Parties in a written amendment to this Agreement, the Parties agree that the GSA's access to the Landowner's Land is limited to wells described in **Exhibit A**'s "Monitoring Well Locations" and in compliance with any conditions listed under "Access Instructions."
- 3. Access and Control. Except as otherwise provided in this Agreement, Landowner retains the exclusive right of access to and control over the Landowner's Land. Nothing contained in this Agreement may be construed as affording the public a right of access to any portion of the Landowner's Land or precluding Landowner's right to grant access to third parties across the Landowner's Land, provided that such access is not inconsistent with this Agreement.

- **4. <u>Duration of Right.</u>** The Parties agree that this Agreement will remain in effect until either of the following occurs: (a) termination of this Agreement by either Party, or (b) change in ownership of the Landowner's Land.
  - **a.** <u>Termination by a Party.</u> The Parties agree that this Agreement may be terminated at any time, with or without cause, by either Party upon 60 days written notice to the other Party.
  - **b.** Landowner's Land: Change in Ownership. The Parties agree that this Agreement will terminate upon any change in ownership of the Landowner's Land. Following that termination, the GSA acknowledges that the GSA must enter into a new access agreement with the new owner(s) of the Landowner's Land.
- **5.** <u>No Easement.</u> This Agreement does not grant the GSA a possessory right, easement, or other real property interest with respect to the Landowner's Land.
- **6.** <u>Costs.</u> All groundwater elevation and water quality monitoring performed by the GSA under this Agreement shall be funded by the GSA.
- 7. <u>No Storage</u>. The right of entry does not include permission to store soil, groundwater, or measurement apparatus on the Landowner's Land. All materials and tools must be removed from the Landowner's Land on the date of entry.
- **8.** Maintenance of Landowner's Land. The Parties acknowledge that this Agreement grants the GSA a non-exclusive year-round license to access the Landowner's Land for the limited purpose of obtaining groundwater elevation and water quality data from the Landowner's well(s). Accordingly, except as provided in paragraph 9 of this Agreement below ("Damage/Restoration"), the Parties agree that the GSA (including its employees, agents, consultants, and contractors) is under no obligation to maintain or otherwise repair the Landowner's Land.
- **9.** <u>Damage/Restoration</u>. The GSA (including its employees, agents, consultants, and contractors) shall take all reasonable precautions to avoid damaging the Landowner's Land. If any damage is caused to the Landowner's Land by the GSA in the course of performance of this Agreement, the GSA shall notify the Landowner immediately. In addition, the GSA shall, at its sole cost and expense, work with the Landowner to take all action reasonably necessary to repair the damage and restore the areas of the Landowner's Land to the condition that existed immediately prior to the damage caused by the GSA.
- 10. <u>Schedule or Notice of Access</u>. The GSA may develop a schedule of dates and times it will access the Landowner's Land for the purposes of well monitoring. If the GSA does not provide the Landowner with a schedule, it shall undertake reasonable efforts to notify the Landowner at least 24 hours in advance of accessing the Landowner's Land pursuant to the access rights granted under this Agreement.

- 11. <u>Indemnity</u>. The GSA shall defend, indemnify, and hold harmless the Landowner for any costs, claims, damages, losses or other liabilities arising out of the GSA's (including any of its employees, agents, consultants, and contractors) actions on the Landowner's Land under this Agreement, with the exception that the GSA will not be responsible for defending, indemnifying, or holding harmless the Landowner with regard to costs, claims, damages, losses, or other liabilities arising out of the sole negligence or intentional misconduct of the Landowner.
- **12.** <u>Insurance</u>. If requested by the Landowner, prior to entering onto the Landowner's Land the GSA shall provide to the Landowner a certificate evidencing general liability insurance in the amount of at least \$10,000,000.00 aggregate limit.
- **13.** Written Notices. Written notices between the Parties shall be sent via U.S. mail to the addresses listed below:

Cuyama Basin GSA	Name	
4900 California Ave, Tower B, Suite 210	Address	
Bakersfield, CA 93309		

- 14. <u>Entire Agreement</u>. This Agreement contains the entire understanding of the Parties and supersedes all prior agreements and understandings among the Parties related to the subject matter of this Agreement.
- **15.** <u>Amendment</u>. Amendments to this Agreement will become effective upon execution of a written amendment signed by both Parties.
- **16.** Severability. If any provision of this Agreement is held to be unenforceable for any reason, it shall be adjusted, rather than voided, if possible, to achieve the intent of the Parties, and the balance of the Agreement shall remain in full force and effect.
- **17.** Governing Law. This Agreement shall be interpreted and enforced pursuant to the laws of the state of California.
- **18.** Effective Date. This Agreement shall become effective as of the latest date of execution below.

DATE: June 25, 2020

SUBJECT: Report on Coordination with Counties

#### Issue

Report on discussions with Cuyama Basin county representatives.

### **Recommended Motion**

Staff is looking for Board direction on including relevant information on the CBGSA website for new well permittees.

### Discussion

Staff met with representative from the four counties in the Cuyama Basin to discuss coordination between the counties and the Cuyama Basin Groundwater Sustainability Agency. Agenda items included:

- Monitoring network
- Well permit noticing
- County ordinances
- Integration with County planning efforts (General Plan amendments)

A matrix summarizing the position of the four counties on the above agenda items is provides as Attachment 1.

### CBGSA / COUNTY SGMA COORDINATION

	Monitoring Network	New Well Permit Notification	County Ordinances (SGMA Related)	Integration with County Planning Efforts
San Luis Obispo	Determining monitoring program going forward. Still currently monitoring wells.	Willing to (1) send documentation to new well permittees, (2) add info on SLO website re: the Cuyama Basin. SLO to add CBGSA to list of jurisdictions to be notified of new well permits.	Out-of-County Export Ordiance (Ch 8.95). Exemption for 0.5 acre-feet.	Planning areas updated on as-needed basis. No updates blanned for Cuyama planning area intersects (Carrizo, South County, North County). Conservation and Open Place amendment updated in 2015. Potentially review of Board resources assessment (every two years; next on in March 2021).
Santa Barbara	Transitioning monitoring to GSA.	New well permits posted on Environmental Health website by region. <b>GSA to monitor?</b> Willing to include information re: the CBGSA during application process.	None	Plan updated in sections. Potentially, Land Use, Conservation and Water sections to be sent for GSA once revised.
Ventura	Continue monitoring, GSA monitoring overlap of two wells.	Willing to provide courtesy notification with permit re: CBGSA.	None	2020-2040 Plan in-process (CEQA to adopt). High-level on SGMA. No CBGSA review needed at this point in process.

Agenda Item No. 8a

FROM: Taylor Blakslee, Hallmark Group

DATE: June 25, 2020

SUBJECT: Authorize Daniels Phillips Vaughn & Bock to Perform the Fiscal Year 2019-20 Financial Audit

#### Issue

Authorize firm to perform Fiscal Year 2019-20 audit.

### **Recommended Motion**

Select Daniells Phillips Vaughan & Bock to perform the Fiscal Year 2019-20 financial audit and execute an engagement letter for an amount not to exceed \$7,700 as outlined in the June 25, 2020 Agenda Item No. 8a memo.

### Discussion

In June 2019, Daniells Phillips Vaughan & Bock (DPVB) was selected to perform a financial audit for the following periods: (1) Inception through June 2018 (9 months), and (2) July 2018 through June 2019 (12 months).

Staff is recommending DPVB be contracted to perform the financial audit for the CBGSA's Fiscal Year 2019-20. DPVB's engagement letter is provided as Attachment 1 for consideration of approval with a cost not-to-exceed amount of \$7,700.

### ARRANGEMENT LETTER

May 25, 2020

Board of Directors **Cuyama Basin Groundwater Sustainability Agency**4900 California Avenue, Tower B, Second Floor

Bakersfield, California 93309

Attention: Jim Beck, Executive Director

### The Objective and Scope of the Audit of the Financial Statements

You have requested that we audit the financial statements of **Cuyama Basin Groundwater Sustainability Agency** (the "Agency") as of and for the year ended June 30, 2020. We are pleased to confirm our acceptance and our understanding of this audit engagement by means of this letter.

Our audit will be conducted with the objective of our expressing an opinion on the financial statements.

### The Responsibilities of the Auditor

We will conduct our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and "Government Auditing Standards" issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement. An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

Because of the inherent limitations of an audit, together with the inherent limitations of internal control, an unavoidable risk that some material misstatements may not be detected exists, even though the audit is properly planned and performed in accordance with GAAS. Also, an audit is not designed to detect errors or fraud that are immaterial to the financial statements. The determination of abuse is subjective; therefore, Government Auditing Standards do not expect us to provide reasonable assurance of detecting abuse.

In making our risk assessments, we consider internal control relevant to the Agency's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. However, we will communicate to you in writing concerning any significant deficiencies or material weaknesses in internal control relevant to the audit of the financial statements that we have identified during the audit.

### **Cuyama Basin Groundwater Sustainability Agency**

May 25, 2020

Page 2

We will also communicate to the governing board (a) any fraud involving senior management and fraud (whether caused by senior management or other employees) that causes a material misstatement of the financial statements that becomes known to us during the audit, and (b) any instances of noncompliance with laws and regulations that we become aware of during the audit (unless they are clearly inconsequential).

Our reports on internal control will include any significant deficiencies and material weaknesses in controls of which we become aware as a result of obtaining an understanding of internal control and performing tests of internal control consistent with requirements of the standards and circulars identified above. Our report(s) on compliance matters will address material errors, fraud, abuse, violations of compliance obligations, and other responsibilities imposed by state and federal statutes and regulations or assumed by contracts, and any state or federal grant, entitlement, or loan program questioned costs of which we become aware, consistent with requirements of the standards and circulars identified above.

### The Responsibilities of Management and Identification of the Applicable Financial Reporting Framework

Our audit will be conducted on the basis that management acknowledges and understands that they have responsibility:

- a. For the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America;
- For the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error;
- For establishing and maintaining effective internal control over financial reporting and for informing us
  of all significant deficiencies and material weaknesses in the design or operation of such controls of
  which it has knowledge;
- d. For identifying and ensuring that the entity complies with the laws and regulations applicable to its activities, and for informing us about all known material violations of such laws or regulations. In addition, management is responsible for the design and implementation of programs and controls to prevent and detect fraud, and for informing us about all known or suspected fraud affecting the entity involving management, employees who have significant roles in internal control, and others where the fraud could have a material effect on the financial statements. Management is also responsible for informing us of its knowledge of any allegations of fraud or suspected fraud affecting the entity received in communications from employees, former employees, analysts, regulators, or others;
- e. For (a) making us aware of significant vendor relationships where the vendor is responsible for program compliance, (b) following up and taking corrective action on audit findings, including the preparation of a summary schedule of prior audit findings, and a corrective action plan, and (c) report distribution including submitting the reporting package(s); and
- f. To provide us with:
  - 1. Access to all information of which management is aware that is relevant to the preparation and fair presentation of the financial statements such as records, documentation, and other matters;
  - 2. Additional information that we may request from management for the purpose of the audit;

### **Cuyama Basin Groundwater Sustainability Agency**

May 25, 2020 Page 3

- Unrestricted access to persons within the entity from whom we determine it necessary to obtain audit evidence;
- 4. When applicable, a summary schedule of prior audit findings for inclusion in the single audit reporting package; and
- 5. If applicable, responses to any findings reported on the schedule of findings and questioned costs.

As part of our audit process, we will request from management written confirmation concerning representations made to us in connection with the audit including among other items:

- a. That management has fulfilled its responsibilities as set out in the terms of this letter; and
- b. That it believes the effects of any uncorrected misstatements aggregated by us during the current engagement and pertaining to the latest period presented are immaterial, both individually and in the aggregate, to the financial statements taken as a whole.

Management is responsible for identifying and ensuring that the Agency complies with the laws and regulations applicable to its activities, and for informing us about all known material violations of such laws or regulations. In addition, management is responsible for the design and implementation of programs and controls to prevent and detect fraud or abuse, and for informing us about all known or suspected fraud or abuse affecting the entity involving management, employees who have significant roles in internal control, and others where the fraud or abuse could have a material effect on the financial statements or compliance. Management is also responsible for informing us of its knowledge of any allegations of fraud or abuse or suspected fraud or abuse affecting the entity received in communications from employees, former employees, analysts, regulators, short sellers, or others.

The board of directors is responsible for informing us of its views about the risks of fraud or abuse within the entity, and its knowledge of any fraud or abuse or suspected fraud or abuse affecting the entity.

Cuyama Basin Groundwater Sustainability Agency agrees that it will not associate us with any public or private securities offering without first obtaining our consent. Therefore, Cuyama Basin Groundwater Sustainability Agency agrees to contact us before it includes our reports or otherwise makes reference to us, in any public or private securities offering.

Our association with an official statement is a matter for which separate arrangements will be necessary. **Cuyama Basin Groundwater Sustainability Agency** agrees to provide us with printer's proofs or masters of such offering documents for our review and approval before printing and with a copy of the final reproduced material for our approval before it is distributed. In the event our auditor/client relationship has been terminated when **Cuyama Basin Groundwater Sustainability Agency** seeks such consent, we will be under no obligation to grant such consent or approval.

Because Daniells Phillips Vaughan & Bock will rely on **Cuyama Basin Groundwater Sustainability Agency** and its management and board of directors to discharge the foregoing responsibilities, **Cuyama Basin Groundwater Sustainability Agency** holds harmless and releases Daniells Phillips Vaughan & Bock, its partners, and employees from all claims, liabilities, losses, and costs arising in circumstances where there has been a knowing misrepresentation by a member of **Cuyama Basin Groundwater Sustainability Agency**'s management which has caused, in any respect, Daniells Phillips Vaughan & Bock's breach of contract or negligence. This provision shall survive the termination of this arrangement for services.

Cuyama Basin Groundwater Sustainability Agency May 25, 2020 Page 4

### Cuyama Basin Groundwater Sustainability Agency's Records and Assistance

If circumstances arise relating to the condition of the Agency's records, the availability of appropriate audit evidence, or indications of a significant risk of material misstatement of the financial statements because of error, fraudulent financial reporting, or misappropriation of assets, which in our professional judgment, prevent us from completing the audit or forming an opinion, we retain the unilateral right to take any course of action permitted by professional standards, including declining to express an opinion, issue a report, or withdraw from the engagement.

During the course of our engagement, we may accumulate records containing data that should be reflected in the Agency's books and records. The Agency will determine that all such data, if necessary, will be so reflected. Accordingly, the Agency will not expect us to maintain copies of such records in our possession.

The assistance to be supplied by Agency personnel, including the preparation of schedules and analyses of accounts, has been discussed and coordinated with Jim Beck, Contracted Executive Director. The timely and accurate completion of this work is an essential condition to our completion of the audit and issuance of our audit report.

In connection with our audit, you have requested us to perform certain non-audit services necessary for the preparation of the financial statements, including financial statement preparation. The independence standards of the "Government Auditing Standards" issued by the Comptroller General of the United States (GAS) require that the auditor maintain independence so that opinions, findings, conclusions, judgments, and recommendations will be impartial and viewed as impartial by reasonable and informed third parties. Before we agree to provide a non-audit service to Cuyama Basin Groundwater Sustainability Agency, we determine whether providing such a service would create a significant threat to our independence for GAS audit purposes, either by itself or in aggregate with other non-audit services provided. A critical component of our determination is consideration of management's ability to effectively oversee the non-audit service to be performed. Cuyama Basin Groundwater Sustainability Agency has agreed that Contracted Executive Director possesses suitable skill, knowledge, or experience and that the individual understands the financial statement preparation services to be performed sufficiently to oversee them. Accordingly, the management of Cuyama Basin Groundwater Sustainability Agency agrees to the following:

- Cuyama Basin Groundwater Sustainability Agency has designated Jim Beck, Contracted Executive Director a senior member of management, who possesses suitable skill, knowledge, and experience to oversee the services.
- 2. Jim Beck, Contracted Executive Director will assume all management responsibilities for subject matter and scope of the financial statement preparation services.
- 3. Cuyama Basin Groundwater Sustainability Agency will evaluate the adequacy and results of the services performed.
- 4. Cuyama Basin Groundwater Sustainability Agency accepts responsibility for the results and ultimate use of the services.

GAS further requires we establish an understanding with the management of **Cuyama Basin Groundwater Sustainability Agency** of the objectives of the non-audit service, the services to be performed, the entity's acceptance of its responsibilities, the auditor's responsibilities, and any limitations of the non-audit service. We believe this letter documents that understanding.

In accordance with Government Auditing Standards, a copy of our most recent peer review report is enclosed, for your information.

Cuyama Basin Groundwater Sustainability Agency May 25, 2020 Page 5

### Parties' Understandings Concerning Situation Around COVID-19

Daniells Phillips Vaughan & Bock and Cuyama Basin Groundwater Sustainability Agency acknowledge that, at the time of the execution of this arrangement letter, federal, state and local governments, both domestic and foreign, have restricted travel and/or the movement of their citizens due to the ongoing and evolving situation around COVID-19. In addition, like many organizations and companies in the United States and around the globe, Daniells Phillips Vaughan & Bock has restricted its employees from travel and onsite work, whether at a client facility or Daniells Phillips Vaughan & Bock facility, to protect the health of both Daniells Phillips Vaughan & Bock's and its clients' employees. Accordingly, to the extent that any of the services described in this arrangement letter requires or relies on Daniells Phillips Vaughan & Bock or Cuyama Basin Groundwater Sustainability Agency personnel to travel and/or perform work onsite, either at Cuyama Basin Groundwater Sustainability Agency's or Daniells Phillips Vaughan & Bock's facilities, including, but not limited to, maintaining business operations and/or IT infrastructure, Daniells Phillips Vaughan & Bock and Cuyama Basin Groundwater Sustainability Agency acknowledge and agree that the performance of such work may be delayed, significantly or indefinitely, and thus certain services described herein may need to be rescheduled and/or suspended at either Daniells Phillips Vaughan & Bock's or Cuyama Basin Groundwater Sustainability Agency's sole discretion. Daniells Phillips Vaughan & Bock and Cuyama Basin Groundwater Sustainability Agency agree to provide the other with prompt written notice (email will be sufficient) in the event any of the services described herein will need to be rescheduled and/or suspended. Daniells Phillips Vaughan & Bock and Cuyama Basin Groundwater Sustainability Agency also acknowledge and agree that any delays or workarounds due to the situation surrounding COVID-19 may increase the cost of the services described herein. Daniells Phillips Vaughan & Bock will obtain Cuyama Basin Groundwater Sustainability Agency's prior written approval (email will be sufficient) for any increase in the cost of Daniells Phillips Vaughan & Bock services that may result from the situation surrounding COVID-19.

### Fees, Costs, and Access to Workpapers

Our fees for the audit and accounting services described above are based upon the value of the services performed and the time required by the individuals assigned to the engagement, plus direct expenses. Our fee estimate and completion of our work is based upon the following criteria:

- a. Anticipated cooperation from Agency personnel
- b. Timely responses to our inquiries
- c. Timely completion and delivery of client assistance requests
- d. Timely communication of all significant accounting and financial reporting matters
- e. The assumption that unexpected circumstances will not be encountered during the engagement

If any of the aforementioned criteria are not met, then fees may increase. Interim billings will be submitted as work progresses and as expenses are incurred. Billings are due upon submission. Amounts that are more than 30 days past due will be subject to a finance charge of 0.0329% per day (12% per annum). We reserve the right to stop work on this engagement, until the account is brought current. Our fee for the services described in this letter will not exceed \$7,700 unless the scope of the engagement is changed, the assistance which the Agency has agreed to furnish is not provided, or unexpected conditions are encountered, in which case we will discuss the situation with you before proceeding. All other provisions of this letter will survive any fee adjustment.

### **Cuyama Basin Groundwater Sustainability Agency** May 25, 2020

Page 6

Our professional standards require that we perform certain additional procedures, on current and previous years' engagements, whenever a partner or professional employee leave the firm and is subsequently employed by or associated with a client. Accordingly, the Agency agrees it will compensate Daniells Phillips Vaughan & Bock for any additional costs incurred as a result of the Agency's employment of a partner or professional employee of Daniells Phillips Vaughan & Bock.

In the event we are requested or authorized by **Cuyama Basin Groundwater Sustainability Agency** or are required by government regulation, subpoena, or other legal process to produce our documents or our personnel as witnesses with respect to our engagement for **Cuyama Basin Groundwater Sustainability Agency**, **Cuyama Basin Groundwater Sustainability Agency** will, so long as we are not a party to the proceeding in which the information is sought, reimburse us for any professional time and expenses, as well as the fees and expenses of our counsel, incurred in responding to such requests.

The documentation for this engagement is the property of Daniells Phillips Vaughan & Bock. However, you acknowledge and grant your assent that representatives of the cognizant or oversight agency or their designee, other government audit staffs, and the U.S. Government Accountability Office shall have access to the audit documentation upon their request; and that we shall maintain the audit documentation for a period of at least three years after the date of the report, or for a longer period if we are requested to do so by the cognizant or oversight agency. Access to requested audit documentation will be provided under the supervision of Daniells Phillips Vaughan & Bock audit personnel and at a location designated by our Firm.

### Reporting

We will issue a written report upon completion of our audit of **Cuyama Basin Groundwater Sustainability Agency**'s financial statements. Our report will be addressed to the board of directors of **Cuyama Basin Groundwater Sustainability Agency**. We cannot provide assurance that an unmodified opinion will be expressed. Circumstances may arise in which it is necessary for us to modify our opinion, add an emphasis-of-matter or other-matter paragraph(s), or withdraw from the engagement.

In addition to our report on **Cuyama Basin Groundwater Sustainability Agency**'s financial statements, we will also issue the following types of reports: Report on internal control related to the financial statements. This report will describe the scope of testing of internal control and the results of our tests of internal controls.

### **Claim Resolution**

If any dispute arises among the parties hereto, the parties agree first to try in good faith to settle the dispute by mediation administered by the American Arbitration Association under its Rules for Professional Accounting and Related Services Disputes before resorting to litigation. The costs of any mediation proceeding shall be shared equally by all parties.

**Cuyama Basin Groundwater Sustainability Agency** and we both agree that any dispute over fees charged by us to the client will be submitted for resolution by arbitration, to be conducted pursuant to the California Arbitration Act. Such arbitration shall be binding and final. In agreeing to arbitration, we both acknowledge that, in the event of a dispute over fees charged by us, each of us is giving up the right to have the dispute decided in a court of law before a judge or jury and instead are accepting the use of arbitration for resolution.

#### **Information Security – Miscellaneous Terms**

Daniells Phillips Vaughan & Bock is committed to the safe and confidential treatment of **Cuyama Basin Groundwater Sustainability Agency**'s proprietary information. Daniells Phillips Vaughan & Bock is required to maintain the confidential treatment of client information in accordance with relevant industry professional standards which govern the provision of services described herein. **Cuyama Basin Groundwater Sustainability Agency** agrees that it will not provide Daniells Phillips Vaughan & Bock with any unencrypted electronic confidential or proprietary information, and the parties agree to utilize commercially reasonable measures to maintain the confidentiality of **Cuyama Basin Groundwater Sustainability Agency** information, including the use of collaborate sites to ensure the safe transfer of data between the parties.

Daniells Phillips Vaughan & Bock may terminate this relationship immediately in its sole discretion if Daniells Phillips Vaughan & Bock determines that continued performance would result in a violation of law, regulatory requirements, applicable professional standards or Daniells Phillips Vaughan & Bock's client acceptance or retention standards, or if **Cuyama Basin Groundwater Sustainability Agency** is placed on a verified sanctioned entity list or if any director or executive of, or other person closely associated with, **Cuyama Basin Groundwater Sustainability Agency** or its affiliates is placed on a verified sanctioned person list, in each case, including but not limited to lists promulgated by the Office of Foreign Assets Control of the U.S. Department of the Treasury, the U.S. State Department, the United Nations Security Council, the European Union or any other relevant sanctioning authority.

If any term or provision of this arrangement letter is determined to be invalid or unenforceable, such term or provision will be deemed stricken and all other terms and provisions will remain in full force and effect.

This letter constitutes the complete and exclusive statement of agreement between Daniells Phillips Vaughan & Bock and **Cuyama Basin Groundwater Sustainability Agency**, superseding all proposals, oral or written, and all other communications, with respect to the terms of the engagement between the parties.

#### **Electronic Signatures and Counterparts**

Each party hereto agrees that any electronic signature of a party to this agreement or any electronic signature to a document contemplated hereby (including any representation letter) is intended to authenticate such writing and shall be as valid, and have the same force and effect, as a manual signature. Any such electronically signed document shall be deemed (i) to be "written" or "in writing," (ii) to have been signed and (iii) to constitute a record established and maintained in the ordinary course of business and an original written record when printed from electronic files. Each party hereto also agrees that electronic delivery of a signature to any such document (via email or otherwise) shall be as effective as manual delivery of a manual signature. For purposes hereof, "electronic signature" includes, but is not limited to, (i) a scanned copy (as a "pdf" (portable document format) or other replicating image) of a manual ink signature, (ii) an electronic copy of a traditional signature affixed to a document, (iii) a signature incorporated into a document utilizing touchscreen capabilities or (iv) a digital signature. This agreement may be executed in one or more counterparts, each of which shall be considered an original instrument, but all of which shall be considered one and the same agreement. Paper copies or "printouts," of such documents if introduced as evidence in any judicial, arbitral, mediation or administrative proceeding, will be admissible as between the parties to the same extent and under the same conditions as other original business records created and maintained in documentary form. Neither party shall contest the admissibility of true and accurate copies of electronically signed documents on the basis of the best evidence rule or as not satisfying the business records exception to the hearsay rule.

### ELECTRONIC RECORD AND SIGNATURE DISCLOSURE

From time to time, Daniells Phillips Vaughan & Bock (we, us or Company) may be required by law to provide to you certain written notices or disclosures. Described below are the terms and conditions for providing to you such notices and disclosures electronically through the DocuSign system. Please read the information below carefully and thoroughly, and if you can access this information electronically to your satisfaction and agree to this Electronic Record and Signature Disclosure (ERSD), please confirm your agreement by selecting the check-box next to 'I agree to use electronic records and signatures' before clicking 'CONTINUE' within the DocuSign system.

### **Getting paper copies**

At any time, you may request from us a paper copy of any record provided or made available electronically to you by us. You will have the ability to download and print documents we send to you through the DocuSign system during and immediately after the signing session and, if you elect to create a DocuSign account, you may access the documents for a limited period of time (usually 30 days) after such documents are first sent to you. After such time, if you wish for us to send you paper copies of any such documents from our office to you, you will be charged a \$0.00 per-page fee. You may request delivery of such paper copies from us by following the procedure described below.

### Withdrawing your consent

If you decide to receive notices and disclosures from us electronically, you may at any time change your mind and tell us that thereafter you want to receive required notices and disclosures only in paper format. How you must inform us of your decision to receive future notices and disclosure in paper format and withdraw your consent to receive notices and disclosures electronically is described below.

### Consequences of changing your mind

If you elect to receive required notices and disclosures only in paper format, it will slow the speed at which we can complete certain steps in transactions with you and delivering services to you because we will need first to send the required notices or disclosures to you in paper format, and then wait until we receive back from you your acknowledgment of your receipt of such paper notices or disclosures. Further, you will no longer be able to use the DocuSign system to receive required notices and consents electronically from us or to sign electronically documents from us.

### All notices and disclosures will be sent to you electronically

Unless you tell us otherwise in accordance with the procedures described herein, we will provide electronically to you through the DocuSign system all required notices, disclosures, authorizations, acknowledgements, and other documents that are required to be provided or made available to you during the course of our relationship with you. To reduce the chance of you inadvertently not receiving any notice or disclosure, we prefer to provide all of the required notices and disclosures to you by the same method and to the same address that you have given us. Thus, you can receive all the disclosures and notices electronically or in paper format through the paper mail delivery system. If you do not agree with this process, please let us know as described below. Please also see the paragraph immediately above that describes the consequences of your electing not to receive delivery of the notices and disclosures electronically from us.

### **How to contact Daniells Phillips Vaughan & Bock:**

You may contact us to let us know of your changes as to how we may contact you electronically, to request paper copies of certain information from us, and to withdraw your prior consent to receive notices and disclosures electronically as follows:

To contact us by email send messages to: support@dpvb.com

### To advise Daniells Phillips Vaughan & Bock of your new email address

To let us know of a change in your email address where we should send notices and disclosures electronically to you, you must send an email message to us at support@dpvb.com and in the body of such request you must state: your previous email address, your new email address. We do not require any other information from you to change your email address.

If you created a DocuSign account, you may update it with your new email address through your account preferences.

### To request paper copies from Daniells Phillips Vaughan & Bock

To request delivery from us of paper copies of the notices and disclosures previously provided by us to you electronically, you must send us an email to megan@dpvb.com and in the body of such request you must state your email address, full name, mailing address, and telephone number. We will bill you for any fees at that time, if any.

### To withdraw your consent with Daniells Phillips Vaughan & Bock

To inform us that you no longer wish to receive future notices and disclosures in electronic format you may:

i. decline to sign a document from within your signing session, and on the subsequent page, select the check-box indicating you wish to withdraw your consent, or you may;

ii. send us an email to support@dpvb.com and in the body of such request you must state your email, full name, mailing address, and telephone number. We do not need any other information from you to withdraw consent.. The consequences of your withdrawing consent for online documents will be that transactions may take a longer time to process..

### Required hardware and software

The minimum system requirements for using the DocuSign system may change over time. The current system requirements are found here: <a href="https://support.docusign.com/guides/signer-guide-signing-system-requirements">https://support.docusign.com/guides/signer-guide-signing-system-requirements</a>.

### Acknowledging your access and consent to receive and sign documents electronically

To confirm to us that you can access this information electronically, which will be similar to other electronic notices and disclosures that we will provide to you, please confirm that you have read this ERSD, and (i) that you are able to print on paper or electronically save this ERSD for your future reference and access; or (ii) that you are able to email this ERSD to an email address where you will be able to print on paper or save it for your future reference and access. Further, if you consent to receiving notices and disclosures exclusively in electronic format as described herein, then select the check-box next to 'I agree to use electronic records and signatures' before clicking 'CONTINUE' within the DocuSign system.

By selecting the check-box next to 'I agree to use electronic records and signatures', you confirm that:

- You can access and read this Electronic Record and Signature Disclosure; and
- You can print on paper this Electronic Record and Signature Disclosure, or save or send this Electronic Record and Disclosure to a location where you can print it, for future reference and access; and
- Until or unless you notify Daniells Phillips Vaughan & Bock as described above, you consent to receive exclusively through electronic means all notices, disclosures, authorizations, acknowledgements, and other documents that are required to be provided or made available to you by Daniells Phillips Vaughan & Bock during the course of your relationship with Daniells Phillips Vaughan & Bock.

TO: Board of Directors

Agenda Item No. 8b

FROM: Taylor Blakslee, Hallmark Group

DATE: June 25, 2020

SUBJECT: Execute Task Order No. 6 with the Hallmark Group for Executive Director Services for the

Fiscal Year 20-21

### <u>Issue</u>

Hallmark Group Task Order No. 6.

### **Recommended Motion**

Execute Hallmark Group's Task Order No. 6 for Executive Director Services for the Fiscal Year 20-21.

### Discussion

The Hallmark Group's current task order for administration of the Cuyama Basin Groundwater Sustainability Agency (CBGSA) ends June 30, 2020. Provided as Attachment 1 is draft Task Order No. 6 for the Fiscal Year 20-21 period (July 1, 2020 through June 30, 2021) for a total amount of \$155,685.00. This amount matches the Hallmark Group items from the FY 20-21 budget that was adopted in May 2020.

The attached task order is provided for consideration of Board approval.

### TASK ORDER CB-HG-006

### TASK ORDER NO. CB-HG-006

CUYAMA BASIN GROUNDWATER SUSTAINABILITY AGENCY EXECUTIVE DIRECTOR

Task Order No.: CB-HG-006

Contractor: The Hallmark Group

Request for Services: Executive Director

Agreement Number: 201709-CB-001

Amount: \$155,685.00

Contract Period: July 1, 2020 – June 30, 2021

### **DESCRIPTION OF TASK**

The Hallmark Group currently serves as the Cuyama Basin Groundwater Sustainability Agency (CBGSA) Executive Director whose services are identified and authorized under Task Order No. 4 and 5 through June 30, 2020. For the July 2020 through June 2021 period, the below tasks match the line items and dollar amounts from the adopted FY 2020-21 budget.

### SCOPE OF WORK FOR CBGSA EXECUTIVE DIRECTOR

#### TASK 1 - CBGSA BOARD OF DIRECTORS MEETINGS

- 1.1 Prepare for and facilitate six Standing Advisory Committee meetings.
- 1.2 Prepare for and facilitate six Board meetings.

#### TASK 2 - CONSULTANT MANAGEMENT AND GSP IMPLEMENTATION

- 2.1 Facilitate biweekly project team calls
- 2.2 Assist with facilitation of potential grant proposal
- 2.3 Review indirect economic analysis impact on project and management actions.
- 2.4 Facilitate DWR TSS process.
- 2.5 Perform GSP implementation program management.
- 2.6 Assist in setup of monitoring network.

- 2.7 Assist in development of adaptive management policies for groundwater levels
- 2.8 Assist in completion of the annual report.
- 2.9 Coordinate and assist with model update/refinements

### TASK 3 - FINANCIAL INFORMATION COORDINATION

- 3.1 Ongoing grant admin for Prop 1 and 68.
- 3.2 Financial report development
- 3.3 Facilitate FY audit
- 3.4 Develop the FY 2021-22 budget and cash flow.

### TASK 4 - CUYAMA BASIN GSA OUTREACH

- 4.1 Plan and facilitate one public workshop, if needed.
- 4.2 Review and assist in development of newsletter.
- 4.3 Coordinate website updates.
- 4.4 General stakeholder outreach (interaction with public, etc.)

### TASK 5 - FUNDING PROCESS (CURRENTLY EXTRACTION FEE) - ADMINISTRATION

- 5.1 Facilitate ET analysis (purchase parcel data, etc.) and review with ad hoc (3, 1-hr meetings).
- 5.2 Develop fee report
- 5.3 Facilitate public hearing
- 5.4 Develop invoices, notices, field inquiries, process late invoices

### TASK 6 - MANAGEMENT AREA ADMINISTRATION

- 6.1 Prepare for and facilitate four ad hoc meetings with the GSA and CBWD.
- 6.2 Develop policies and guidelines.
- 6.3 Facilitate monthly coordination calls.

### TASK 7 - SUPPORT FOR CBGSA RESPONSE TO DWR AND PUBLIC COMMENTS

7.1 Facilitate response(s) to potential DWR inquiries during the GSP review.

TASK NUMBER	DELIVERABLE	TARGET DATE
1	Facilitate 6 SAC and 6 Board meetings	Bimonthly
2.1	Facilitate project team calls	Biweekly
3.3	Facilitate the Audit	Aug 20
3.4	FY 2021-22 Budget	Mar 21
5	Develop fee report	May 21
6	Develop policies and guidelines for GSA/CBWD delegation	TBD

### TERM

The term of this Task Order is July 1, 2020 through June 30, 2021.

### **DETAILED COSTS**

Contractor shall invoice all services according to the Agreement. The total amount of this Task Order shall not exceed \$155,685.00. Line item costs are provided in Exhibit A.

TO: Board of Directors

Agenda Item No. 8c

FROM: Taylor Blakslee, Hallmark Group

DATE: June 25, 2020

SUBJECT: Execute Task Order No. 8 with Woodard & Curran for Technical Support Services for the

Fiscal Year 20-21

#### Issue

Woodard & Curran Task Order No. 8.

#### **Recommended Motion**

Execute Woodard & Curran's Task Order No. 8 for technical support services for the Fiscal Year 20-21.

#### Discussion

Woodard & Curran's current task order for technical support services for the Cuyama Basin Groundwater Sustainability Agency (CBGSA) ends June 30, 2020. Provided as Attachment 1 is a draft Task Order No. 8 for the Fiscal Year 20-21 period (July 1, 2020 through June 30, 2021) for a total amount of \$739,525.00. This amount matches the W&C items from the FY 20-21 budget that was adopted in May 2020 with the exclusion of an already-budgeted field work item and the groundwater levels network costs which were contracted through the Hallmark Group.

Staff recommends execution of W&C's Task Order No. 8 and is provided for consideration of Board approval.

Attachment 1

#### TASK ORDER NUMBER 8

### Issued Pursuant to the Consulting Services Agreement Between Woodard & Curran, Inc. and Cuyama Basin Groundwater Sustainability Agency, dated as of June 25, 2020.

This Task Order is issued pursuant to, and in accordance with the Agreement, the terms and conditions of which are incorporated herein by this reference. Unless otherwise specified, all capitalized terms used in this Task Order shall have the same meaning as used in the Agreement. This Task Order will not be deemed valid and binding upon the Parties until both Consultant and Client have both signed below.

#### **Scope of Services:**

Consultant agrees to provide the Services described in the attached Task Order No. 8 – Scope of Services.

#### **Schedule:**

Consultant shall perform the services under this Task Order No. 8 according to the schedule included in Exhibit A of the Agreement and Table 1 and 2 below.

#### **Compensation:**

For all Services duly rendered hereunder, Client shall pay Consultant in accordance with the Rate Table; and for Reimbursable Expenses. Compensation for Task Order No. 8 shall not exceed \$739,525, as detailed in the attached budget.

This task order includes the following support for the Cuyama Basin Groundwater Sustainability Agency (CBGSA) by the Woodard & Curran (W&C) team during the period starting from approval of this Task Order through June 30, 2021:

- Stakeholder and board engagement
- Ongoing outreach support
- Support for California Department of Water Resources (DWR) Technical Support Services (TSS)
- Cuyama Basin Groundwater Sustainability Plan (GSP) implementation support
- Support for Management Area implementation
- Support for development and implementation of a CBGSA funding mechanism
- DWR grant agreement administration
- Preparation of grant application
- Indirect and induced economic analysis
- Develop a strategy for update and refinement of Cuyama Basin groundwater model

These activities are described in the scope of work below.

#### **Scope of Work**

#### Task 1: FY 2020/21 Stakeholder and Board Engagement

This task includes support for stakeholder and CBGSA Board engagement during the period of July 1, 2020 through June 30, 2021. Under this task, the W&C team will provide the following services for up to six meetings of the Stakeholder Advisory Committee (SAC) and up to six meetings of the CBGSA Board:

- Prepare presentation materials and other handouts and documents needed for each SAC and Board meeting (prepare materials for up to six meetings)
- Participation in each SAC meeting (one consultant team staff participant, either in person or via conference call) (participate in up to six meetings)
- Participation in each CBGSA Board meeting (one consultant team staff participant, either in person or via conference call) (participate in up to six meetings)

In addition, the W&C team will participate in conference calls at up to 12 meetings of CBGSA Board Ad-hoc committees.

Finally, the W&C team will provide support for 1 public workshop. For this workshop, W&C will prepare presentation materials, facilitation, and meeting participation.

#### Task 1 Deliverables

Presentation materials and other handouts developed for SAC and Board meetings

#### Task 2: FY 2020/21 Outreach Support

This task includes the following activities to be performed by the W&C team during the period from July 1, 2020 through June 30, 2021:

- As needed stakeholder outreach support, including development of newsletters and other outreach materials, coordination with CBGSA Board and SAC members, and planning and facilitation for stakeholder outreach meetings.
- Maintenance of the CBGSA website, including hosting services and uploading of website content as needed.

#### Task 2 Deliverables

- Newsletters and other outreach materials that are developed
- Continued maintenance of the CBGSA website

#### Task 3: Support for DWR Technical Support Services

In this task, the W&C team will assist the CBGSA in obtaining support from the DWR TSS, which DWR is offering to assist Groundwater Sustainability Agencies (GSAs) develop new monitoring wells. This task includes the following activities to be performed during the period from July 1, 2020 through June 30, 2021:

- Coordination calls with DWR representatives, CBGSA Ad-hoc committee and Cuyama Basin stakeholders
- Completion of application forms and other documents required by DWR to facilitate the TSS process
- Working with the CBGSA Ad-hoc committee to contact local landowners to complete necessary permission forms and to obtain specific well site information and needed to determine the exact locations for well installation

#### Task 3 Deliverables

Completed application forms and other documents required by DWR

#### Task 4: Cuyama Basin GSP Implementation Support

The W&C team will support the CBGSA in GSP implementation, including program management activities; implementation of monitoring for groundwater levels, groundwater quality, surface water and groundwater dependent ecosystems; data management, support for CBGSA response to DWR and public comments; support for adaptive management; and preparing an annual report for the Cuyama Basin. The task includes the following subtasks.

#### Subtask 4.1 – GSP Implementation Program Management

The W&C team will perform oversight of project and management action implementation, including coordination among GSA Board, staff and stakeholders, coordination of GSA implementation technical activities, oversight and management of CBGSA consultants and subconsultants, budget tracking, schedule management, and quality assurance/quality control of project implementation activities.

#### Subtask 4.2 – Groundwater Levels Monitoring Network Implementation

The current water level monitoring network is described in Chapter 4 of the Cuyama Basin GSP. In this subtask, the W&C team will support preparation of up to sixty (60) of the wells included in the groundwater levels monitoring network by Provost and Pritchard, (working under contract with the GSA) for the completion of future monitoring events, and monthly monitoring of up to 100 monitoring network wells. The following activities by the W&C team are included:

- Coordination with existing monitoring entities the W&C team will coordinate with DWR, USGS,
  SBCWA, Ventura County, and private landowners to collect as much information about the 60
  monitoring wells as possible. Activities will include calls and meetings with monitoring agencies to
  explain the needs of the CBGSA's monitoring program and to collect additional well data that is not
  typically included in monitoring datasets such as casing size and whether a pump is present in the well.
  Additionally, the process of collecting monitoring permission agreements will be started in this task.
- Field validation of monitoring sites the W&C team will support Provost & Pritchard, who will physically
  visit each of the 60 monitoring wells under separate contract and prepare a monitoring site information
  form. Information collected for the form will include the reference point for depth to water
  measurement, photos of the monitoring well, location information, GPS coordinates, and other
  necessary information.
- Monthly monitoring the W&C team will support Provost & Pritchard, who will perform monthly
  monitoring at each monitoring well, and will manage the uploading of data collected into the data
  management system.
- Evaluate options for future monitoring the W&C team will work with CBGSA staff, Board, and stakeholders to evaluate the monitoring network included in the GSP and recommend changes, including potentially adding or removing wells, evaluating continuous monitoring versus manual monitoring, and changing the frequency of manual monitoring. This task does not include preparation of a document; instead the W&C team will prepare presentation materials for discussion at SAC and Board meetings.

#### Subtask 4.3 – Groundwater Quality Monitoring Network Implementation

The current water quality monitoring network is described in Chapter 4 of the Cuyama Basin GSP. In this subtask, information will be collected for up to sixty (60) wells included in the groundwater levels monitoring network, and those wells will be prepared for the completion of future monitoring events. The following activities are included:

- Coordination with existing monitoring entities the W&C team will coordinate with DWR, USGS, SBCWA, Ventura County, and private landowners to collect as much information about the 60 monitoring wells as possible. It is assumed that W&C will contract with a subconsultant to assist with this effort at a cost of no more than \$4,000. Activities will include calls and meetings with monitoring agencies to explain the needs of the CBGSA's monitoring program and to collect additional well data that is not typically included in monitoring datasets such as casing size and whether a pump is present in the well. Additionally, the process of collecting monitoring permission agreements will be started in this task.
- Field validation of monitoring sites the W&C team will physically visit each of the 60 monitoring wells and prepare a monitoring site information form. It is assumed that W&C will contract with a subconsultant to complete the field work portion of this effort at a cost of no more than \$40,000. Information collected for the form will include the reference point for depth to water measurement, photos of the monitoring well, location information, GPS coordinates, and other necessary information. The presence or absence of an operating pump in the well will be documented as well. Finally, a manual measurement of TDS in the well will be collected.

 Evaluate options for future monitoring – the W&C team will work with CBGSA staff, Board, and stakeholders to evaluate the monitoring network included in the GSP and recommend changes, including potentially adding or removing wells, evaluating continuous monitoring versus manual monitoring, and changing the frequency of manual monitoring. This task does not include preparation of a document; instead the W&C team will prepare presentation materials for discussion at SAC and Board meetings.

#### Subtask 4.4 – Surface Water Monitoring Network

This task will be performed after the two surface water gages are installed on the Cuyama River under W&C's current task order using Category 1 grant funding from DWR. It is assumed that W&C will then subcontract with the U.S. Geologic Survey to perform ongoing maintenance, data collection, and data management for the surface flow gages for a cost of \$54,000 or less. It is assumed that the budget included in this task order will be sufficient for one year of support from the USGS for each gage.

#### Subtask 4.5 – Monitoring for Groundwater Dependent Ecosystems

The W&C team will work with CBGSA staff, Board and stakeholders to identify promising locations for installation of piezometers in the Cuyama Basin and to develop a recommendation for implementation during FY 2021-22. This task will include technical analysis and coordination with local landowners. This task does not include preparation of a document; instead the W&C team will prepare presentation materials for discussion at SAC and Board meetings.

#### Subtask 4.6 – Data Management

Under this task, the Cuyama Basin Data Management System (DMS) will be enhanced, updated, and maintained during the period starting from approval of this Task Order through June 30, 2021. The following activities are included:

- Implement enhancements to the DMS the W&C team will perform the following: 1) Add mobile data uploading capability; 2) Implement a standard report for uploading to the DWR SGMA Portal.
- Update monitoring data in the DMS the W&C team will coordinate with member agencies and
  participating entities to collect recent measurement data and well information. Data will be collected
  using the standard data collection template designed to import data directly to the DMS. Once all the
  data is received, it will be reviewed to ensure required information is provided and organized for import
  to the DMS.

#### Subtask 4.7 – Support for CBGSA Response to DWR and Public Comments

In this task, the W&C team will assist the CBGSA in reviewing and responding to comments and questions from DWR and the public on the GSP document submitted to DWR in January 2020. This task includes the following activities to be performed during the period from July 1, 2020 through June 30, 2021:

- Coordination calls with DWR representatives
- Completion of documentation and other information requested by DWR to facilitate review of the GSP
- Assisting in developing written responses to comments on the GSP provided by DWR and the public

#### Subtask 4.8 – Support for Adaptive Management of Groundwater Levels

In this task, the W&C team will assist the CBGSA in evaluating progress towards meeting its sustainability goals and avoiding undesirable results. The GSP defines adaptive management triggers that would initiate the process for considering implementation of adaptive management and actions. As directed by the CBGSA, the W&C team will assist the CBGSA in evaluating whether groundwater levels are trending towards undesirable results, investigating the cause, and recommending appropriate actions.

#### Subtask 4.9 - Prepare Annual Report for Cuyama Basin

The W&C team will prepare the sections needed to complete the Annual Report. The following sections will be developed:

- Executive Summary a concise statement of the contents of the Annual Report
- Introduction a description of the purpose of the Annual Report, information about CBGSA, and a summarized description of the Cuyama Basin Plan Area
- Updated Groundwater Conditions the current, historical, and projected conditions of the Basin will be updated, including updated groundwater elevation contour maps, hydrographs of groundwater elevations and change in groundwater storage
- Water Supply and Use descriptions and values (where possible) about groundwater extraction, surface water flows, and total water use for the preceding year
- Plan Implementation Status a description of the progress towards implementation of the GSP, including progress towards achieving interim milestone and towards the implementation of projects and management actions

An Annual Report document will be prepared and submitted to the CBGSA Board for review and approval at a CBGSA Board meeting prior to submittal to DWR.

#### Task 4 Deliverables

- Completed monitoring well information sheets for each water level and water quality well
- Enhanced DMS updated with recent monitoring data and well information
- Recommendations for next steps for groundwater levels, quality, and GDE monitoring
- Annual Report for the Cuyama Basin

#### Task 5: Support for Management Area Administration

The W&C team will provide as-needed support to the CBGSA Board to help in the administration of activities performed in the CBGSA management area. Potential work activities by the W&C team include:

- Coordination and meeting participation with Cuyama Basin Water District (CBWD) staff and consultants
- Working with CBWD staff and consultants on review of technical information and technical updates related to the management area, including adjustment of management area boundaries
- Review and consultation with CBWD on GSP project implementation to ensure consistency with GSP project descriptions
- Other activities as directed by the CBGSA Board.

The W&C team will work with the CBGSA Board and/or ad-hoc committee to identify specific activities to be performed in this task and to ensure that activities to be performed under this task are approved prior to beginning work.

#### Task 5 Deliverables

• Documents and other materials prepared

#### Task 6: Support for Development and Implementation of a CBGSA Funding Mechanism

This task includes the following activities to be performed by the W&C team during the period from July 1, 2020 through June 30, 2020:

- Perform a spatial evapotranspiration (ET) evaluation of water usage on irrigated lands during year 2020 throughout the Cuyama Basin. The task will include performing a "Mapping of EvapoTranspiration with Internal Calibration" (METRIC) ET evaluation of the Cuyama Basin, performing review and validation of the METRIC ET results, and reporting the results to the CBGSA Board. It is assumed that W&C will contract with a subconsultant to complete the ET analysis at a cost of no more than \$16,000.
- Assist with development of extraction fee report to be used for administration of the extraction fee and with resolution of questions as needed.
- Additional tasks as requested by the CBGSA.

#### Task 6 Deliverables

Final Metric ET analysis results

#### Task 7. DWR Grant Agreement Administration

The W&C team will manage and administer the grant funding to be received under the SGM grant and will be conducted by a retained consultant with review by the CBGSA. As required under the Basin's current funding agreement, this task will involve the preparation of reimbursement request packages containing invoices from those implementing the components and quarterly progress reports. Under this task, invoices will be checked and incorporated into monthly invoices that clearly show team members, hours, costs, and progress on component tasks. Quarterly progress reports will be prepared to accompany DWR invoices showing progress made during the month, next steps for the following billing cycle, and status of both schedule and budget. Activities under this task will also include review of component-related documents to ensure adherence to the requirements of the DWR Grant Agreement.

This task also includes coordination among members of the technical team to ensure consistency between tasks and sharing of information and data. Additionally, this task includes preparation of a final report to DWR, in addition to submittal of quarterly progress reports and invoices, as required by the grant agreement.

Finally, as part of this task, stakeholders, including groundwater users, the general public, and other interested parties, will be kept informed about the components' progress through continued GSP-related outreach, relevant reports and data and the incorporation of such into GSP development, and on work and products completed.

#### Task 7 Deliverables

Quarterly progress reports and reimbursement request packages on behalf of the CBGSA

#### Task 8: Preparation of Grant Application

As directed by the CBGSA Board, the W&C team will prepare an application for grant funding under the DWR Proposition 68 (Prop 68) SGM Grant Program or other grant program as directed by the CBGSA Board. The task includes the following subtasks.

#### Subtask 8.1 – Coordination with Cuyama Basin Stakeholders

The W&C team will coordinate with the CBGSA Board and/or ad-hoc committee to review the work plans, budgets, and schedules to be included in the Grant Application. Consultant will confirm that the information submitted to DWR both meets standards required by the grant program and is in alignment with the expectations of the CBGSA Board.

#### Subtask 8.2 – Grant Application Development and Submittal

A draft grant application will be prepared to address the various requirements grant funding as documented in the PSP for the grant opportunity and to track completion of the required attachments. Work items to be conducted in preparing the application could potentially include:

- Review of final grant solicitation materials, including project qualification requirements, authorization and eligibility requirements, and preparation of grant application outline and list of data needs.
- Preparation of required eligibility documentation, including documentation of compliance with the required state programs.
- Preparation of the Work Plan, Budget and Schedule attachments as required by the grant opportunity
- Preparation of the Severely Disadvantaged Community (SDAC), Disadvantaged Community (DAC), and Economically Distressed Area (EDA) attachments as required by the grant opportunity
- Submittal of all required grant application documents

#### Task 8 Deliverables

• Draft and final electronic (Word and PDF) files of the grant application

#### Task 9: Indirect and Induced Economic Analysis

The W&C team will perform an indirect and induced economic analysis that builds on the existing direct impact analysis commissioned by the CBGSA under initial GSP development. It is assumed that W&C will contract with a subconsultant to complete the economics analysis at a cost of no more than \$75,000. As part of this effort, the subconsultant may participate in a full-day, kick-off meeting and field tour of the Basin to be planned and coordinated by the CBGSA to review agricultural businesses, constraints, and related information considered to be unique to the Basin regional economy.

In addition, a customized version of the IMPLAN input-output model will developed. The following tasks will be performed by the subconsultant as part of model development:

- Develop baseline economic data describing agricultural production, businesses, business purchasing patterns, and market conditions in the Basin. As needed, research and compile additional information to validate baseline information from Ag Census and other publicly available reports.
- Survey DACs that contribute to and are affected by agricultural production in the Basin. Develop a survey to determine location of labor and required economic information describing Basin labor.
- Develop default IMPLAN model of the Basin, using off-the-shelf IMPLAN model data for the four-county area. Describe the economic web of agriculture-related businesses in the Basin. Inventory businesses based on North American Industry Classification System (NAICS) code and identify relevant sectors in the IMPLAN model. Create a custom IMPLAN model that includes the new or modified sectors specific for the Basin.
- Apply the customized Basin IMPLAN economic model to quantify total (direct, indirect, and induced) economic impacts of the GSP. Develop the baseline (without SGMA) condition and the with-GSP

implementation scenario for the economic impact analysis. The analysis will compare with- to without-GSP implementation. The analysis will identify the location of economic impacts by sectors of the Basin economy.

The results of the impact analysis will be summarized in a concise policy report that includes charts and tables describing the economic metrics and documents the economic impacts by sector with a narrative summarizing the key findings and any potential alternatives to reduce GSP implementation costs. In addition, subconsultantwill participate in a teleconference/video meeting to present the findings of the final economic impact analysis report to the CBGSA and stakeholders.

#### Task 9 Deliverables

- Meeting summaries for stakeholder meetings
- Summary report that describes the results of the impacts analysis

# Task 10: Develop a Strategy for Update and Refinement of Cuyama Basin Groundwater Model

The Cuyama Basin Water Resources Model (CBWRM) was developed and applied to analyses for the GSP using the best available data and information as of June 2018. The GSP also identified some potential actions to support future model updates, including continued engagement with local stakeholders, additional hydrogeological conceptualization, improved streamflow record collection, improved representation of small watersheds, development of groundwater pumping estimates, and incorporating future data into model calibration. Under this task, the W&C team will collect and analyze additional data that has become available since development of the CBWRM and perform the following coordination activities:

- Coordination with technical reviewers representing Basin stakeholders, including participation in up to 3 online meetings to discuss model data improvements and potential model updates.
- Participate in up to three conference calls with CBGSA Board ad-hoc committees

The W&C team will develop draft and final versions of a technical memorandum that describes an approach for updating and recalibrating the CBWRM model that can be implemented during FY 2021-22.

#### Task 10 Deliverables

Draft and final technical memorandum

#### **Cuyama Basin Groundwater Sustainability Agency**

## CUYAMA BASIN GROUNDWATER SUSTAINABILITY AGENCY

## PROGRESS REPORT FOR TASK ORDER CB-HG-004 & CB-HG-005

Client Name:	Cuyama Basin Groundwater Sustainability Agency	Agreement Number:	201709-CB-001
Company Name:	HGCPM, Inc. DBA The Hallmark Group	Address:	500 Capitol Mall, Suite 2350 Sacramento, CA 95814
Task Order Number:	CB-HG-004 & CB-HG-005	Report Period:	April 1-30, 2020
Progress Report Number:	16	Project Manager:	Jim Beck
Invoice Number:	2020-CBGSA-04	Invoice Date:	April 30, 2020

#### SUMMARY OF WORK PERFORMED

### Task Order 5

## Task 1: Board and Standing Advisory Committee Meeting Facilitation

- Facilitated Cuyama Basin Groundwater Sustainability Agency (CBGSA) Standing Advisory Committee (SAC) meeting on April 30, 2020.
- Drafted February 27, 2020 CBGSA Standing Advisory Committee (SAC) meeting minutes.

## Task 2: GSP Consultant Management and GSP Development

- Prepared for, met with, and facilitated CBGSA Program Management Team (PMT) on a bi-weekly basis to discuss GSP section progress and outreach.
- Facilitated evapotranspiration proposal teleconference meeting with Woodard & Curran and LandIQ on April 1, 2020.
- Coordinated and prepared for budget, Groundwater Extraction Fee, long-term Extraction Fee policy, and monitoring network ad hoc meetings.
- Discussed CBGSA management area administration with legal counsel.
- Reviewed Grant Administration documents.
- Correspondence regarding SAC member resignations.
- Reviewed and revised budget, cashflow, and participant reimbursement spreadsheets.
- Submitted the California Department of Water Resources (DWR) Technical Support Services (TSS) application information to DWR.
- Discussed DWR TSS mailout and cost strategy with DWR's J. Tung and W&C.
- Distributed Phase 1 proposed wells to SAC members and Cuyama Basin stakeholders.
- Email correspondence with Board Chair and legal counsel regarding ad hoc meetings.

### **Task 3: Financial Management**

- Reviewed and discussed Prop 68 grant agreement documents with DWR's A. Regmi.
- Developed budget components for FY 20-21 including coordination with Woodard & Curran and legal counsel.
- Finalized cash flow and reimbursement contribution model.
- Processed Groundwater Extraction Fee notices and payments.
- Billing, accounting and administration.

#### Task 4: Stakeholder Outreach Facilitation

- Processed data request for Geographic Information Systems (GIS) data from The Nature Conservancy.
- Reviewed draft newsletter.

#### Task Order 4

#### Task 1: Development of Groundwater Extraction Fee

- Researched and discussed assessor parcel numbers (APNs) and GIS data with Kern, Santa Barbara, San Luis
   Obispo, and Ventura counties to assist in classifying the locations of Groundwater Extraction Fee parcels.
- Discussed Groundwater Extraction Fee late notice distribution with MinuteMan Press (mail service).
- Recorded information from Groundwater Extraction Fee forms.
- Correspondence with landowners regarding Groundwater Extraction Fee via phone and email.
- Discussed San Luis Obispo's GIS data with C. Martin.
- Revised Groundwater Extraction Fee stakeholder distribution list.

### **DELIVERABLES AND COMPLETED TASKS**

- Facilitated April 30, 2020 CBSGA SAC meeting.
- Distributed Groundwater Extraction Fee late notice.
- Facilitated budget, Groundwater Extraction Fee, long-term Extraction Fee policy, and monitoring network ad hoc meetings.

## PLANNED OBJECTIVES FOR NEXT REPORTING PERIOD

- Facilitate budget, Groundwater Extraction Fee, long-term Extraction Fee policy, and monitoring network ad hoc meetings.
- Attend bi-weekly CBGSA program management team meetings.

## CUYAMA BASIN GROUNDWATER SUSTAINABILITY AGENCY

## PROGRESS REPORT FOR TASK ORDER CB-HG-004 & CB-HG-005

Client Name:	Cuyama Basin Groundwater Sustainability Agency	Agreement Number:	201709-CB-001
Company Name:	HGCPM, Inc. DBA The Hallmark Group	Address:	500 Capitol Mall, Suite 2350 Sacramento, CA 95814
Task Order Number:	CB-HG-004 & CB-HG-005	Report Period:	May 1-31, 2020
Progress Report Number:	17	Project Manager:	Jim Beck
Invoice Number:	2020-CBGSA-05	Invoice Date:	May 31, 2020

#### SUMMARY OF WORK PERFORMED

### Task Order 5

## Task 1: Board and Standing Advisory Committee Meeting Facilitation

- Facilitated Cuyama Basin Groundwater Sustainability Agency (CBGSA) Board of Directors (Board) meeting on May 6, 2020.
- Drafted March 4, 2020 CBGSA Board meeting minutes.
- Reviewed Board agenda with CBGSA Board Chair on May 5, 2020.
- Facilitated GoToMeeting dry run with Board members on May 6, 2020.
- Developed and distributed notices detailing cancellation of the May 28, 2020 Standing Advisory Committee (SAC) and Board meetings.

#### Task 2: GSP Consultant Management and GSP Development

- Prepared for, met with, and facilitated CBGSA Program Management Team (PMT) to discuss GSP section progress and outreach.
- Facilitated meeting with Santa Barbara County regarding county integration with CBGSA Groundwater Sustainability Plan (GSP) on May 1, 2020.
- Facilitated meeting with Ventura County regarding county integration with CBGSA Groundwater Sustainability Plan (GSP) on May 15, 2020.
- Facilitated monitoring network kick-off meeting with Woodard & Curran (W&C) and Provost & Pritchard Consulting Group (P&P) on May 15, 2020.
- Facilitated monitoring network coordination meeting with W&C, P&P, and Santa Barbara County on May 18, 2020.
- Facilitated meeting with San Luis Obispo County regarding county integration with CBGSA Groundwater Sustainability Plan (GSP) on May 28, 2020.
- Reviewed and discussed GSP public comments submitted to the California Department of Water Resources (DWR).

- Developed and discussed evapotranspiration (ET) analysis and map.
- Developed strategy for Phase 1 implementation.
- Reviewed ET well template.
- Developed and distributed addendum No. 1.
- Discussed access agreements and management area delegation process for Board with legal counsel.
- Reviewed and summarized Request for Proposal (RFP) bids.
- Discussed monitoring network contracting strategy for P&P.
- Reviewed DWR Technical Support Services (TSS) application with C. Baker.
- Discussed NOE updates with legal counsel.
- Discussed assessor parcel numbers (APNs) data and ET analysis with W&C.
- Coordinated management area delegation ad hoc meeting.
- Correspondence with CBGSA SAC Chair B. Kelley regarding new well drilling in the Cuyama Basin.
- Discussed Grapevine Capital's well permitting with R. Shady and discussed with CBGSA SAC Chair B. Kelley.

#### **Task 3: Financial Management**

- Facilitated CBGSA budget ad hoc meeting on May 1, 2020.
- Researched budget ad hoc inquiry.
- Reviewed, discussed, and finalized cash flow and reimbursement contribution model.
- Reviewed Prop 68 grant schedule with W&C.
- Reviewed W&C extraction development financials.
- Coordinated insurance payment.
- Processed Groundwater Extraction Fee notices and payments.
- Discussed grants and grant invoicing.
- Billing, accounting and administration.

#### Task 4: Stakeholder Outreach Facilitation

- Distributed notices regarding DWR GSP public comment deadline extension.
- Distributed public newsletters.

### Task Order 4

#### Task 1: Development of Groundwater Extraction Fee

- Researched and compiled APNs and GIS data for Kern, Santa Barbara, San Luis Obispo, and Ventura counties to assist in classifying the locations of Groundwater Extraction Fee parcels.
- Facilitated the Groundwater Extraction Fee ad hoc meeting regarding evapotranspiration analysis on May 29, 2020.
- Recorded information from Groundwater Extraction Fee forms.
- Correspondence with landowners regarding Groundwater Extraction Fee via phone and email.

#### DELIVERABLES AND COMPLETED TASKS

- Facilitated May 6, 2020 CBSGA Board meeting.
- Facilitated budget and Groundwater Extraction Fee ad hoc meetings.
- Facilitated monitoring network kick-off meeting.

## PLANNED OBJECTIVES FOR NEXT REPORTING PERIOD

- Facilitate Special Board, SAC, and public rate hearing meetings on June 25, 2020.
- Facilitate budget, Groundwater Extraction Fee, long-term Extraction Fee policy, and monitoring network ad hoc meetings.
- Attend bi-weekly CBGSA program management team meetings.

## **Progress Report**

## **Cuyama Basin Groundwater Sustainability Plan Development**

Subject: April 2020 Progress Report

Jim Beck, Executive Director,

Prepared for: Cuyama Basin Groundwater Sustainability Agency (CBGSA)

Prepared by: Brian Van Lienden, Woodard & Curran

Reviewed by: Lyndel Melton, Woodard & Curran

Date: May 14, 2020

**Project No.:** 0011078.01

This progress report summarizes the work performed and project status for the period of March 28, 2020 through April 24, 2020 on the Cuyama Basin Groundwater Sustainability Plan Development project. The work associated with this invoice was performed in accordance with our Consulting Services Agreement dated December 6, 2017, and with Task Order 5, issued by the CBGSA on June 6, 2018, Task Order 6, issued by the CBGSA on August 7, 2019, and Task Order 7, issued by the CBGSA on December 4, 2019. Note that Task Orders 1, 2, 3 and 4 were already 100% spent as of the beginning of this reporting period.

The progress report contains the following sections:

- 1. Work Performed
- 2. Budget Status
- 3. Schedule Status
- Outstanding Issues to be Coordinated

## 1 Work Performed

A summary of work performed on the project during the current reporting period is provided in Tables 1, 2, 3 and 4 below. Table 1 shows work performed under Task Orders 2 and 4, which include tasks identified in the Category 2 grant from the California Department of Water Resources (DWR). Table 2 shows work performed under Task Orders 3 and 5, which includes tasks identified in the Category 1 grant from DWR. Table 3 shows work performed under Task Order 6. Table 4 shows work under Task Order 7.

Table 1: Summary of Task/Deliverables Status for Category 2 Tasks (Task Orders 2 and 4)

Task	Work Completed	Percent	Work Scheduled
	During the Reporting Period	Complete	for Next Period
Task 1: Initiate Work	Task 1 is completed; no		Task 1 is completed; no

Task 9. GSP Development	Task 9 is completed; no work was undertaken on this task during this reporting period	100%	Task 9 is completed; no further work is anticipated; additional work to complete the GSP will be performed under Task 16
Task 10: Education, Outreach and Communication	Task 10 is completed; no work was undertaken on this task during this reporting period	100%	Task 10 is completed; no further work is anticipated; additional outreach and communication work will be performed under Tasks 17 and 18
Task 11: Project Management	Task 11 is completed; no work was undertaken on this task during this reporting period	100%	Task 11 is completed; no further work is anticipated. Further project management activities will be covered in Tasks 15 and 16.

Table 2: Summary of Task/Deliverables Status for Category 1 Tasks (Task Orders 3 and 5)

Task	Work Completed During the Reporting Period	Percent Complete	Work Scheduled for Next Period
Task 12: Groundwater Monitoring Well Network Expansion	Continued development of CEQA documentation	80%	Once partners have been identified, work will commence to perform the field work required to install the data sensors
Task 13: Evapotranspiration Evaluation for Cuyama Basin Region	No work was performed on Task     13 during this period.	100%	Task 13 is completed; no further work is anticipated
Task 14: Surface Water Monitoring Program	Continued development of CEQA documentation	53%	Once the CEQA process is complete, work will commence to install the stream gauges
Task 15: Category 1 Project Management	Ongoing project management and grant administration activities	94%	Ongoing project management and grant administration activities

Table 3: Summary of Task/Deliverables Status for Task Order 6

Task	Work Completed During the Reporting Period	Percent Complete	Work Scheduled for Next Period
Task 16: Finalize GSP Development	Task 16 is completed; no work was undertaken on this task during this reporting period	100%	Task 16 is completed; no further work is anticipated
Task 17: Stakeholder & Board Engagement	<ul> <li>Participation in ad-hoc calls</li> <li>Prepare presentation materials for April SAC meeting and May CBGSA Board meeting</li> </ul>	100%	Task 17 is completed; no further work is anticipated. Further outreach support will be performed under Task 22
Task 18: Outreach Support	Task 18 is completed; no work was undertaken on this task during this reporting period	100%	Task 18 is completed; no further work is anticipated. Further outreach support will be performed under Task 23
Task 19: Support for DWR Technical Support Services	Task 19 is completed; no work was undertaken on this task during this reporting period	100%	Task 19 is completed; no further work is anticipated. Further outreach support will be performed under Task 24
Task 20: Prepare SGM Planning Grant Application	Task 20 is completed; no work was undertaken on this task during this reporting period	100%	Task 20 is completed; no further work is anticipated
Task 21: Development of a CBGSA Fee Structure	Participate in meetings to discuss approaches for developing ET estimates for CBGSA fee	3%	Provide support as needed

Table 4: Summary of Task/Deliverables Status for Task Order 7

Task	Work Completed During the Reporting Period	Percent Complete	Work Scheduled for Next Period
Task 22: Stakeholder & Board Engagement	No work was performed on Task 22 during this period.	0%	Support for upcoming CBGSA Board and SAC meetings, and participation in ad hoc calls
Task 23: Outreach Support	Ongoing stakeholder outreach activities related to GSP completion	35%	Ongoing stakeholder outreach activities related to GSP completion and implementation
Task 24: Support for DWR Technical Support Services	<ul> <li>Finalize site specific applications and submit to DWR</li> <li>Ongoing coordination activities</li> </ul>	80%	Ongoing coordination activities
Task 25: Cuyama Basin GSP Implementation Support	<ul> <li>Assist in process to solicit contractors for monitoring network field work</li> <li>Program management and grant administration</li> </ul>	50%	<ul> <li>Ongoing program         management and grant         administration</li> <li>Implementation of         monitoring network field         work</li> </ul>
Task 26: Development of Management Area Policies and Guidelines	No work was performed on Task 26 during this period.	0%	Provide support as needed
Task 27: Support for Determining a Funding Mechanism for FY 20-21	Assist in developing CBGSA budget for FY 2020-21	100%	Task 27 is completed; no further work is anticipated.

## 2 Budget Status

Table 5 shows the percent spent for each task under Task Order 1. 100% of the available Task Order 1 budget has been expended (\$321,135.00 out of \$321,135).

Table 5: Budget Status for Task Order 1

Task	Total Budget	Spent Previously	Spent this Period	Total Spent to Date	Budget Remaining	% Spent to Date

## **Progress Report**

## **Cuyama Basin Groundwater Sustainability Plan Development**

Subject: May 2020 Progress Report

Jim Beck, Executive Director,

Prepared for: Cuyama Basin Groundwater Sustainability Agency (CBGSA)

Prepared by: Brian Van Lienden, Woodard & Curran

Reviewed by: Lyndel Melton, Woodard & Curran

Date: June 17, 2020

**Project No.:** 0011078.01

This progress report summarizes the work performed and project status for the period of April 25, 2020 through May 29, 2020 on the Cuyama Basin Groundwater Sustainability Plan Development project. The work associated with this invoice was performed in accordance with our Consulting Services Agreement dated December 6, 2017, and with Task Order 5, issued by the CBGSA on June 6, 2018, Task Order 6, issued by the CBGSA on August 7, 2019, and Task Order 7, issued by the CBGSA on December 4, 2019. Note that Task Orders 1, 2, 3 and 4 were already 100% spent as of the beginning of this reporting period.

The progress report contains the following sections:

- 1. Work Performed
- 2. Budget Status
- 3. Schedule Status
- 4. Outstanding Issues to be Coordinated

## 1 Work Performed

A summary of work performed on the project during the current reporting period is provided in Tables 1, 2, 3 and 4 below. Table 1 shows work performed under Task Orders 2 and 4, which include tasks identified in the Category 2 grant from the California Department of Water Resources (DWR). Table 2 shows work performed under Task Orders 3 and 5, which includes tasks identified in the Category 1 grant from DWR. Table 3 shows work performed under Task Order 6. Table 4 shows work under Task Order 7.

Table 1: Summary of Task/Deliverables Status for Category 2 Tasks (Task Orders 2 and 4)

Task	Work Completed	Percent	Work Scheduled
1221	During the Reporting Period	Complete	for Next Period
Task 1: Initiate Work Plan for GSP and Stakeholder Engagement Strategy Development	Task 1 is completed; no work was undertaken on this task during this reporting period	100%	Task 1 is completed; no further work is anticipated
Task 2: Data Management System, Data Collection and Analysis, and Plan Review	Task 2 is completed; no work was undertaken on this task during this reporting period	100%	Task 2 is completed; no further work is anticipated
Task 3: Description of the Plan Area, Hydrogeologic Conceptual Model, and Groundwater Conditions	Task 3 is completed; no work was undertaken on this task during this reporting period	100%	Task 3 is completed; no further work is anticipated
Task 4: Basin Model and Water Budget	Task 4 is completed; no work was undertaken on this task during this reporting period	100%	Task 4 is completed; no further work is anticipated
Task 5: Establish Basin Sustainability Criteria	Task 5 is completed; no work was undertaken on this task during this reporting period	100%	Task 5 is completed; no further work is anticipated
Task 6. Monitoring Networks	Task 6 is completed; no work was undertaken on this task during this reporting period	100%	Task 6 is completed; no further work is anticipated
Task 7: Projects and Actions for Sustainability Goals	Task 7 is completed; no work was undertaken on this task during this reporting period	100%	Task 7 is completed; no further work is anticipated
Task 8. GSP Implementation	Task 8 is completed; no work was undertaken on this task during this reporting period	100%	Task 8 is completed; no further work is anticipated

Task	Work Completed During the Reporting Period	Percent Complete	Work Scheduled for Next Period
Task 9. GSP Development	Task 9 is completed; no work was undertaken on this task during this reporting period	100%	Task 9 is completed; no further work is anticipated; additional work to complete the GSP will be performed under Task 16
Task 10: Education, Outreach and Communication	Task 10 is completed; no work was undertaken on this task during this reporting period	100%	Task 10 is completed; no further work is anticipated; additional outreach and communication work will be performed under Tasks 17 and 18
Task 11: Project Management	Task 11 is completed; no work was undertaken on this task during this reporting period	100%	Task 11 is completed; no further work is anticipated. Further project management activities will be covered in Tasks 15 and 16.

Table 2: Summary of Task/Deliverables Status for Category 1 Tasks (Task Orders 3 and 5)

Task	Work Completed During the Reporting Period	Percent Complete	Work Scheduled for Next Period
Task 12: Groundwater Monitoring Well Network Expansion	No work was performed on Task     12 during this period.	80%	Once partners have been identified, work will commence to perform the field work required to install the data sensors
Task 13: Evapotranspiration Evaluation for Cuyama Basin Region	No work was performed on Task     13 during this period.	100%	Task 13 is completed; no further work is anticipated
Task 14: Surface Water Monitoring Program	No work was performed on Task     14 during this period.	53%	Once the CEQA process is complete, work will commence to install the stream gauges
Task 15: Category 1 Project Management	Ongoing project management and grant administration activities	94%	Ongoing project     management and grant     administration activities

Table 3: Summary of Task/Deliverables Status for Task Order 6

Task	Work Completed During the Reporting Period	Percent Complete	Work Scheduled for Next Period
Task 16: Finalize GSP Development	Task 16 is completed; no work was undertaken on this task during this reporting period	100%	Task 16 is completed; no further work is anticipated
Task 17: Stakeholder & Board Engagement	Task 17 is completed; no work was undertaken on this task during this reporting period	100%	Task 17 is completed; no further work is anticipated. Further outreach support will be performed under Task 22
Task 18: Outreach Support	Task 18 is completed; no work was undertaken on this task during this reporting period	100%	Task 18 is completed; no further work is anticipated. Further outreach support will be performed under Task 23
Task 19: Support for DWR Technical Support Services	Task 19 is completed; no work was undertaken on this task during this reporting period	100%	Task 19 is completed; no further work is anticipated. Further outreach support will be performed under Task 24
Task 20: Prepare SGM Planning Grant Application	Task 20 is completed; no work was undertaken on this task during this reporting period	100%	Task 20 is completed; no further work is anticipated
Task 21: Development of a CBGSA Fee Structure	Perform ET analysis to assist with development of groundwater extraction fee estimates	30%	Provide support as needed in advance of public rate hearing in June

Table 4: Summary of Task/Deliverables Status for Task Order 7

Took	Work Completed	Percent	Work Scheduled
Task	During the Reporting Period	Complete	for Next Period
Task 22: Stakeholder & Board Engagement	<ul> <li>Participation in ad-hoc calls</li> <li>Prepare presentation materials for and participate in May CBGSA Board meeting</li> </ul>	75%	Support for upcoming     CBGSA Board and SAC     meetings, and participation     in ad hoc calls
Task 23: Outreach Support	Ongoing stakeholder outreach activities related to GSP completion	50%	Ongoing stakeholder outreach activities related to GSP completion and implementation
Task 24: Support for DWR Technical Support Services	Coordination with CBGSA staff and DWR	80%	Ongoing coordination activities
Task 25: Cuyama Basin GSP Implementation Support	<ul> <li>Coordination with CBGSA staff and consultants and county staff</li> <li>Prepare date management templates for field work</li> <li>Data Management System (DMS) updates</li> <li>Monitoring network approach development</li> <li>Program management and grant administration</li> </ul>	50%	<ul> <li>Ongoing program         management and grant         administration</li> <li>Implementation of         monitoring network field         work</li> </ul>
Task 26: Development of Management Area Policies and Guidelines	Coordination with CBWD technical consultants on technical data, including review of technical data and methods     Develop list of potential tasks for management area delegation	10%	Provide support as needed
Task 27: Support for Determining a Funding Mechanism for FY 20-21	Assist in developing CBGSA budget for FY 2020-21	100%	Task 27 is completed; no further work is anticipated.

#### 2 Budget Status

Table 5 shows the percent spent for each task under Task Order 1. 100% of the available Task Order 1 budget has been expended (\$321,135.00 out of \$321,135).

Table 5: Budget Status for Task Order 1

#### 3 Schedule Status

The project is on schedule. Work authorized under Task Orders 1, 2, 3 and 4 are complete.

#### 4 Outstanding Issues to be Coordinated

None

TO: Board of Directors

Agenda Item No. 14

FROM: Jim Beck, Executive Director

DATE: June 25, 2020

SUBJECT: Set a Groundwater Extraction Fee for Fiscal Year 2020-21 and Authorize Invoicing of

Landowners

#### Issue

Consider setting a groundwater extraction fee.

#### **Recommended Motion**

Adopt Resolution No. 2020-06 setting a groundwater extraction fee of \$39 per acre-foot of water consumed in the 2019 water year (Oct 2018 to September 2019) and authorize staff to invoice landowners according to the policies in the Fiscal Year 20-21 Groundwater Extraction Fee report and the consumed water per irrigated parcel list provided as Attachment 2 to the June 25, 2020 agenda item No. 14 memo.

#### Discussion

The CBGSA adopted a groundwater extraction fee in November 2019 to fund administration of its groundwater management program and GSP. That fee was based on water use in 2019 and was to cover the calendar year 2020 period. After the CBGSA collected a majority of the fees, the CBGSA determined that the collected fees would not be sufficient to fully fund administration costs. The primary reason for this under collection was the difference in estimated water used in the Cuyama Basin over which the CBGSA spread the budget when setting the fee. The original modeling showed irrigated water use of 60,000 AF for 2019. Once land use was updated in late 2019, the model projection was revised to 47,000 AF. Another issue was that some landowners with meters reported water use using meters (a gross method) while those without meters provided estimates of irrigated use via crop factors that were provided which is a net calculation of water use.

To address the under collection, resolve the inconsistency between gross and net reporting methods and to streamline the fee process, in March 2020, the CBGSA Board set the fee using a fiscal year (rather than calendar year) using the results from an evapotranspiration (ET) study for water year 2019 conducted by Land IQ and determined the need for a supplemental fee in 2020.

Staff reviewed the ET data with the Groundwater Extraction Fee ad hoc (Directors Bantilan, Cappello, Chounet, Shephard and Wooster) and recommend setting a groundwater extraction fee as described in Resolution 2020-06 provided as Attachment 1. The irrigated acres APN list with associated ET values is provided as Attachment 2 and the draft invoice template is provided as Attachment 3.

#### **RESOLUTION NO. 2020-06**

# A RESOLUTION OF THE BOARD OF DIRECTORS OF CUYAMA BASIN GROUNDWATER SUSTAINABILITY AGENCY DETERMINING AND ESTABLISHING A GROUNDWATER EXTRACTION FEE AGAINST ALL PERSONS OPERATING GROUNDWATER EXTRACTION FACILITIES WITHIN THE CUYAMA BASIN

WHEREAS, pursuant to the Sustainable Groundwater Management Act (SGMA), Groundwater Sustainability Agencies (GSA) are authorized to impose and increase regulatory fees (Wat. Code, § 10730); and

WHEREAS, SGMA gives a GSA the authority to impose and increase fees to fund the costs of a groundwater sustainability program, including the costs of preparing and implementing its Groundwater Sustainability Plan (GSP), investigation of groundwater conditions, compliance assistance, enforcement, and program administration, among other things; and

**WHEREAS**, the types of fees that can be imposed and increased to fund the costs of a groundwater management program include fees on groundwater extraction; and

**WHEREAS**, on November 6, 2019, the GSA adopted a \$19.00 per acre foot groundwater extraction fee to fund the administration of its groundwater management program and GSP; and

**WHEREAS**, the GSA gave notice concerning the increase under consideration as follows:

- 1. By posting on the GSA's website at www.cuyamabasin.org on June 12, 2020.
- **2.** By posting a notice in The Santa Maria Times of the public fee hearing on June 12, 2020 and June 19, 2020.
- **3.** By mailing a notice of the public fee hearing to all landowners within the GSA's boundaries.
- **4.** The notices included:
  - The time and place of the hearing;
  - A general explanation of the fee under consideration; and
  - A statement that the data on which the fee is based is publicly available.
- **5.** At least 13 days prior to the public fee hearing, the GSA made the data upon which the fee is based available to the public on the GSA's website.

**NOW, THEREFORE, BE IT RESOLVED** by the Board of Directors of Cuyama Basin Groundwater Sustainability Agency that the existing \$19.00 per acre foot groundwater extraction fee should be increased and levied as follows:

- 1. Increase the existing \$19.00 per acre foot groundwater extraction fee adopted on November 6, 2019 to \$39.00 per acre foot that shall be levied on all groundwater extracted from within the GSA boundary. Commercial water users using 1.5 acre feet or less in a year per well and domestic water users using 2.0 acre feet or less in a year per well are deemed to be de minimis users and exempt from this fee.
- **2.** The FY 2020-2021 Groundwater Extraction Fee Report (Report) on which the extraction fee is based is attached as **Exhibit A** and incorporated herein by reference. The Report is approved and adopted, and GSA staff is directed to comply with its provisions.
- **3.** The Board of Directors of Cuyama Basin Groundwater Sustainability Agency makes the following findings based upon the testimony and evidence (including exhibits) presented at the June 25, 2020 public fee hearing:
  - (a) Revenues derived from the groundwater extraction fee will not exceed the funds required to provide for implementation of GSP and related administrative services.
  - (b) Revenues derived from the groundwater extraction fee shall not be used for any purpose other than that for which the groundwater fee is imposed.

PASSED, APPROVED, AND ADOPTED this 25th day of June, 2020.

Derek Yurosek, Board Chair

#### **SECTION 1 – ACRONYMS**

re-feet
ļ

CBGSA Cuyama Basin Groundwater Sustainability Agency

GSA Groundwater Sustainability Agency
GSP Groundwater Sustainability Plan

SGMA Sustainable Groundwater Management Act

#### **SECTION 2 – DEFINITIONS**

#### **De Minimis User** – *Commercial*

Uses 1.5 acre-feet or less in a year per well. De minimis users do not have to pay a fee, but must still provide well information on Form D as found in Exhibit B.

#### **De Minimis User** – *Domestic (Non-Commercial)*

Uses 2 acre-feet or less in a year per well. De minimis users do not have to pay a fee, but must still provide well information on Form D as found in Exhibit B.

#### **Water Year**

Starting in October and ending in September. For example, the 2019 water year encompasses October 2018 through September 2019.

#### SECTION 3 – CUYAMA BASIN GROUNDWATER SUSTAINABILITY AGENCY BACKGROUND

The Cuyama Basin Groundwater Sustainability Agency (CBGSA) was formed in 2017 under the Sustainable Groundwater Management Act (SGMA) to develop and implement a Groundwater Sustainability Plan (GSP). The purpose of the GSP is to achieve groundwater sustainability for the Cuyama Basin by 2040. The CBGSA is governed by an 11-member board with representatives from the four counties that intersect the Basin (Kern, Santa Barbara, San Luis Obispo, and Ventura), the Cuyama Community Services District, and the Cuyama Basin Water District.

The CBGSA adopted a groundwater extraction fee in November 2019 to fund administration of its groundwater management program and GSP. That fee was based on water use in 2019 and was to cover the calendar year 2020 period. After the CBGSA collected a majority of the fees, the CBGSA determined that the collected fees would not be sufficient to fully fund administration costs. The primary reason for this under collection was the difference in estimated water used in the Cuyama Basin over which the CBGSA spread the budget when setting the fee. The original modeling showed irrigated water use of 60,000 AF for 2019. Once land use was updated in late 2019, the model projection was revised to 47,000 AF. Another issue was that some landowners with meters reported water use using meters (a gross method) while those without meters provided estimates of irrigated use via crop factors that were provided which is a net calculation of water use.

To address the under collection, resolve the inconsistency between gross and net reporting methods and to streamline the fee process, in March 2020, the CBGSA Board set the fee using a fiscal year (rather than calendar year) using the results from an evapotranspiration study for water year 2019 conducted by Land IQ and determined the need for a supplemental fee in 2020.

#### **SECTION 4 – ESTABLISHING A FEE**

Water Code section 10730 authorizes Groundwater Sustainability Agencies (GSAs) to establish a groundwater extraction fee to fund, among other things, the costs of a groundwater management program, including administration of a GSP. The CBGSA has set the fee over the Fiscal Year 2020-2021 period and is based on the 2019 water year water consumption.

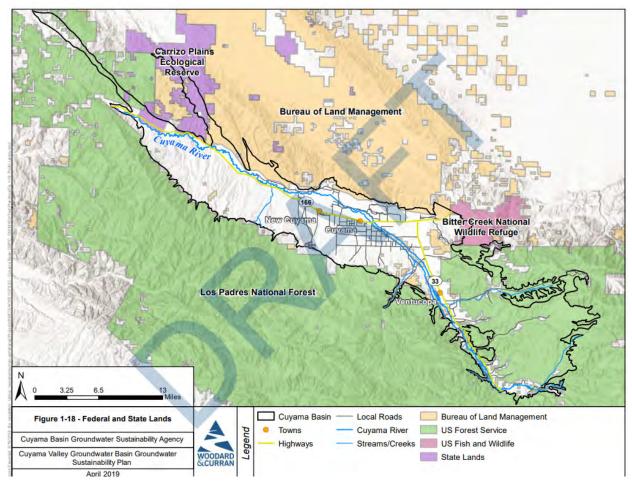

#### Section 4.1 – Definition of an "Extractor"

An extractor is defined as a pumper of groundwater within the Cuyama Basin groundwater basin boundary as defined by California Department of Water Resources' Bulletin 118 (see Figure 1 below). The below groups are not considered extractors:

#### **Exclusions:**

- De miminis user Wells that use 1.5 acre-feet or less per year for commercial purposes, or wells that use less than 2 acre-feet per year for residential purposes. De minimis users do not have to pay a fee, but must still provide well information on Form D as found in Exhibit B.
- State and federal lands Non-commercial water use on State and federal lands. Well use on State and federal lands do not have to pay a fee, but must still provide well information on Form D as found in Exhibit B.

FIGURE 1 - GROUNDWATER BASIN IN CUYAMA

#### Section 4.2 – Fee Basis

The proposed groundwater extraction fee is based on the CBGSA's fiscal year budget and includes an estimated delinquency rate of 10 percent. The fiscal year budget for 2020-21 was adopted on May 6, 2020 and totals \$1,355,321.00 which is included as Exhibit A. However, for the fee, the CBGSA is only collecting money for non-grant reimbursable items which equals \$1,014,264.00 as shown in the attached budget.

To determine water use, Land IQ was contracted to analyze water consumption (evapotranspiration (ET)) on a per parcel basis for the 2019 water year. Below is a summary of the analysis performed for determining the ET and precipitation for the Cuyama Valley Groundwater Basin. The "unit" for the final result is the estimated volume, in acre-feet, of groundwater consumption by parcel for all of irrigated land in the Cuyama Basin.

#### Data used:

- Crop Data data was compiled from various sources (included below) and utilizes the most recent and available crop data across the Basin. Please note that each data source references crop types from different years.
  - o Bolthouse and Grimmway Farms crop data for 2019.
  - o Grapevine Capital crop data from 2017.
  - o Private landowners/all other most recent data are from 2016, which is the same data that was used in the GSP.
- Precipitation provided by Land IQ and provides precipitation in millimeters in raster format, as well as per parcel.
- Evapotranspiration provided by Land IQ, provides ET in millimeters in raster format, as well as per parcel.

#### Purpose of Analysis:

The goal of this analysis is to determine how much water was consumed on irrigated lands across the Cuyama Groundwater Basin. Each irrigator will be responsible for paying a certain amount per acre-foot of water pumped to irrigate cropland, as determined by the Cuyama GSA. Fees are distributed by parcel boundary (provided as GIS data), as provided by each of the participating counties. Fees do not apply to *de minimis* users.

#### Summary of Calculations:

The core of this analysis is two data sets that spatially cover the Cuyama Basin; precipitation and evapotranspiration (ET). Simply, the difference between the two for a given area (parcel) approximates the value of groundwater pumped to irrigate crops on that parcel.

For example, if it rains 20 inches during the water year (October through September) on a one-acre parcel, and ET on the parcel is 50 inches, then there has been 30 inches of applied water on those crops. In the Cuyama Basin, all water applied to crops is either precipitation or groundwater, and thus the 30 inches of non-precipitation water are assumed to be from groundwater pumping. Because our example parcel is one-acre, and there are 12 inches per foot, 2.5 AF of water have been consumed as crop ET.

#### Detailed Analysis Process Description:

The following is a detailed description of the process used to perform the analysis.

#### 1.1 Compile most recently available crop data

As described in the *Data Used* section above, three separate datasets existed for crop information. These were compiled into a single shapefile in GIS.

#### 1.2 Perform Intersect Analysis with parcel layer and Crop Layer

A intersect analysis was done with the parcel data to calculate the area (in acres) of each crop type for each parcel. Where multiple crop types were present in a single parcel, crop areas were combined. After additional processing in Excel, two values were calculated for each parcel: total acreage and total irrigated acreage.

#### 1.3 Process Land IQ precipitation and ET data

Precipitation and ET data were provided by Land IQ in raster format. ET raster data is provided with approximately 30-meter grids while precipitation data is provided in approximately 4-kilometer grids. Spatial analysis was conducted to find the median ET value and closest precipitation value for each crop. Where median ET values for crops were not available, the closest value was used. The weighted average of these values was then used to calculate the total ET and precipitation values for the irrigated portions of each parcel. Summing the total difference between the calculated ET and precipitation on irrigated portions of parcels in the Basin provides and estimated volume of total ET by irrigated crops.

#### 1.4 Merging ET and Precipitation Values to Parcel Acreages and Parcel Irrigated Acreages

Table information was exported out of GIS and matched with the associated ET and precipitation data in excel. Additional analysis was then conducted to calculate total acre-foot of crop ET for each parcel by total parcel acreage and irrigated acreage in each parcel.

To calculate the total crop acre-foot, the following calculations were performed for the full 2019 water year:

- 1. Convert precipitation from millimeters to inches
- 2. Get the difference between ET and precipitation ( = ET precipitation )
- 3. Replace all negative results with zero
- 4. Convert difference from inches to feet
- 5. Multiply by parcel acreage and irrigated acreage for each parcel to calculate both results

The resulting values are an approximation of the total AF of crop ET for the 2019 water year (see Figure 2).

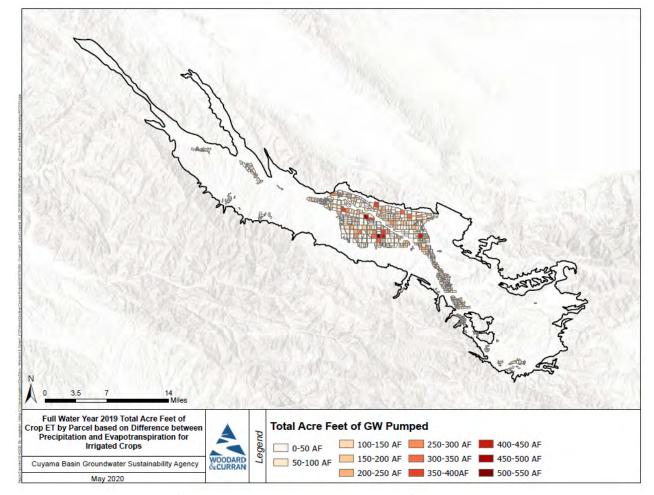

FIGURE 2 – TOTAL ACRE-FEET of CROP EVAPOTRANSPIRATION

The total consumed water for irrigated lands in the Cuyama Basin from the above analysis is 28,284 acre-feet.

Based on the fiscal year 2020-21 budget less reimbursable costs, inclusion of a 10% delinquency rate and the results of the 2019 water year evapotranspiration analysis, the CBGSA recommends a groundwater extraction fee of \$39 per acre-feet to cover the Fiscal Year 20-21 CBGSA administration costs (July 1, 2020 through June 30, 2020).

#### Section 5 - ADMINISTRATION OF FEE

#### Section 5.1 – Invoices

Invoices and instructions for payment will be sent to all irrigators in July 2020. Invoices will include addressee contact information from the assessor's office and will include parcel numbers of irrigated lands and their respective ET values. If payments are not received by the due date of August 30, a past due notice will be mailed out in September 2020.

#### Section 5.1.1 – Non-Irrigation Water Consumption

For landowners using water that are not irrigators, Form M "Municipal and Industrial" will be sent to all parcel owners in the Cuyama Basin to calculate if non-irrigated water use is above the de minimis threshold and requires payment to the CBGSA. Form M is included in Exhibit B of this report. When filling out Form M, you must use metered use information if available.

#### Section 5.1.2 - De Minimis

De minimis users (see Section 2 for definitions) do not have to pay a fee, but must still provide well information on Form D as found in Exhibit B. This form will be sent to all parcel owners in the Cuyama Basin.

#### Section 5.2 – Schedule/Reporting period

The below schedule outlines the groundwater extraction fee process:

Mar Evapotranspiration Analysis Performed

May Fiscal Year Budget Adopted

**Jun** Public Hearing to Establish Fee

Jul Invoices and Forms are Mailed Out

Jul-Aug Payment Collection Period

Aug 30, 2020 Payment Due Date

**Sep** Late penalties assessed (10% and then 1% per month)

#### **SECTION 6 – PENALTIES**

Well owners will be charged a 10 percent penalty after the August 30, 2020 due date with an escalation rate of 1 percent for each month late after the initial due date.

# Form D DE MINIMIS USER

WATER USE WORKSHEET – Oct 2018 through Sep 2019 Cuyama Basin Groundwater Sustainability Agency

Name	
Address	
Phone Number	

#### Reporting:

While de minimis users do not have to pay the groundwater extraction fee, they must file their water use, type and well information in the below table.

#### **De Minimis User Definitions:**

- Commercial Uses 1.5 acre-feet or less in a year per well.
- Domestic (Non-Commercial) Uses 2 acre-feet or less in a year per well.

A	В	С	D	Е
Well ID	Well ID Well Location (APN or Address)		Type of Commercial Use *If applicable	Estimated Water Use (acre-feet)

LATE FEE

# Form D MUNICIPAL & INDUSTRIAL

WATER USE ESTIMATE WORKSHEET – Oct 2018 through Sep 2019 Cuyama Basin Groundwater Sustainability Agency Extraction Statement and Fees are due by August 30, 2020. A 10% late penalty will be assessed for payments received after this date with a 1% escalation rate for each additional month late.

Please use one form per well

Name	
Address	
Phone Number	
Well ID	
Well Location (APN or address)	

#### Instructions:

- 1. Water usage is for the 2019 water year (which is October 2018 through September 2019).
- 2. For wells with meters, enter the water usage for the 2019 water year in column E in the below table for the appropriate corresponding water use category found in column A.
  - a. If reporting gallons, sum the results from column E to row 12 and follow the calculations from row 12-16.
  - b. If reporting in <u>acre-feet</u>, sum the column E results in row 13, multiply by the rate in row 14 and follow row 15 and 16 instructions.
- 3. If you *do not* have a meter, calculate water use by inputting units used for municipal & industrial water use in column B (see Exhibit D-1 to calculate units) for the appropriate corresponding water use categories found in column A.
  - a. Multiply units used (column B) by the water consumption factor in column C and input result in column D.
  - b. Total the gallons from column D and convert to acre-feet on row 13.
  - c. Multiply acre-feet used from row 13 by the groundwater extraction fee on row 14 and follow row 15 and 16 instructions.
- 4. Make payment from row 16 to the following address:

Attn: Cuyama Basin Groundwater Sustainability Agency 500 Capitol Mall, Suite 2350 Sacramento, CA 95814

	A	В		С		D	E
	Type of Use	Units Used		Water Consumption Factor (Gal)		Water Use (Gal)	Metered Use

14	Groundwater Extraction Fee				\$39	\$39
15	Subtotal				\$	\$
16	Total of Columns D & E					\$

If your total in row 16 is \$78 or less for the 2019 water year, you are considered a de minimis user, not required to pay and only need to submit Form D "De Minimis User".

## Exhibit D-1 – Unit(s) Calculations

#### **Unit Calculation**

	Type of Use	Units Used
1	Chicken Ranches	Avg number of units of 100 chickens on hand for the reporting period.
2	Livestock Drinking Water	Average number of livestock on hand for the reporting period (drinking water only). Amounts derived from NDSU Extension Service report from July 2015 entitled "Livestock Water Requirements."
3	Hotels	Total number of rooms.
4	Office Buildings; including Churches	Total number of offices in building, or offices served.
5	Restaurants	Total number of seats including seats at the counter, chairs, stools, benches and patio seating.
6	Service Stations	Number of stations served.
7	Stores	Square feet of any store, supermarket or shop. Calculation includes employee, customer and maintenance water use.
8	Trailer Court	Average number of people in the trailer court.
9	Elementary Schools	Total number of students, faculty, custodians, and maintenance staff multiplied by the number of school days. If there was non-ag watered land input amount in row 11.
10	Junior & Senior High Schools and Churches	Total number of students, faculty, custodians, and maintenance staff multiplied by the number of school days. If there was non-ag watered land input amount in row 11. For churches, figure total hours and divide by 8 to determine number of "school days."
11	Watered Land; non-ag	All lands, ornamental plants, shrubs, etc., watered but not qualifying for agricultural rate.
