SECTION 2 – DEFINITIONS

De Minimis User – Commercial

Uses 1.5 acre-feet or less in a year per well. De minimis users do not have to pay a fee.

De Minimis User – Domestic (Non-Commercial)

Uses 2 acre-feet or less in a year per well. De minimis users do not have to pay a fee.

SECTION 3 – CUYAMA BASIN GROUNDWATER SUSTAINABILITY AGENCY BACKGROUND

The Cuyama Basin Groundwater Sustainability Agency (CBGSA) was formed in 2017 under the Sustainable Groundwater Management Act (SGMA) to develop and implement a Groundwater Sustainability Plan (GSP). The purpose of the GSP is to achieve groundwater sustainability for the Cuyama Basin by 2040. The CBGSA is governed by an 11-member board with representatives from the four counties that intersect the Basin (Kern, Santa Barbara, San Luis Obispo, and Ventura), the Cuyama Community Services District, and the Cuyama Basin Water District.

SECTION 4 – ESTABLISHING A FEE

Water Code section 10730 authorizes Groundwater Sustainability Agencies (GSAs) to establish a groundwater extraction fee to fund, among other things, the costs of a groundwater management program, including administration of a GSP. The CBGSA has set the fee over the Fiscal Year 2022-2023 period and is based on (i) the CBGSA’s draft budget and cash flow for Fiscal Year 2022-2023; and (ii) 2021 water consumption.

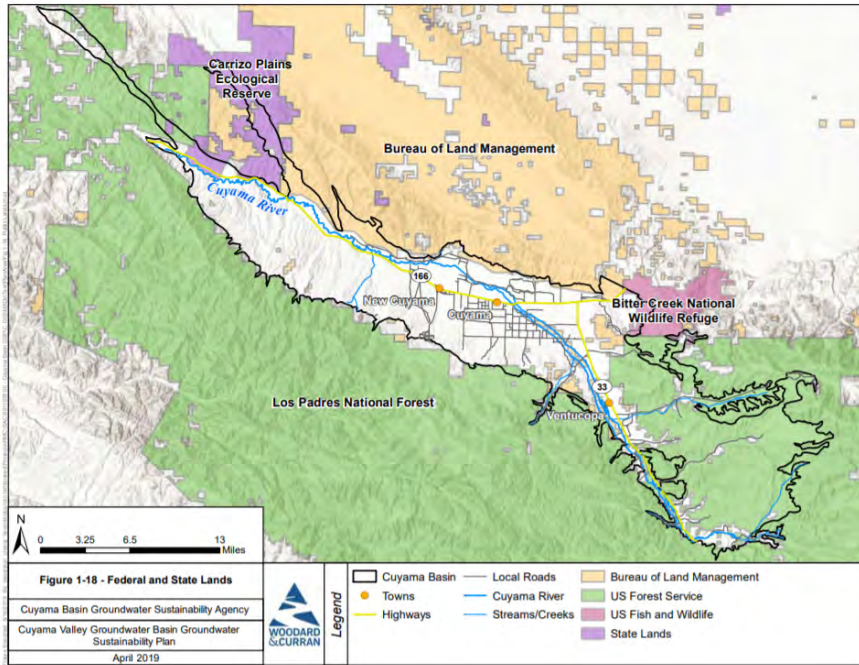

Section 4.1 – Definition of an “Extractor”

An extractor is defined as a pumper of groundwater within the Cuyama Basin groundwater basin boundary as defined by California Department of Water Resources’ Bulletin 118 (see Figure 1 below). The below groups are not considered extractors:

Exclusions:

- De minimis user – Wells that use 1.5 acre-feet or less per year for commercial purposes, or wells that use less than 2 acre-feet per year for residential purposes. De minimis users do not have to pay a fee.
- State and federal lands – Non-commercial water use on State and federal lands. Well use on State and federal lands do not have to pay a fee.

Section 4.2 – Fee Basis

The proposed reduction of the groundwater extraction fee is based on the CBGSA’s fiscal year budget and cash flow. The budget and cash flow for Fiscal Year 2022-2023 will be presented for consideration of adoption at the May 4, 2022 regular meeting of the CBGSA Board of Directors. The draft budget for Fiscal Year 2022-2023 totals \$4.16 million. \$4.05 million represents costs reimbursable by the recently awarded California Department of Water Resources Sustainable Groundwater Management Act Implementation Grant and \$106,000 represents costs not reimbursable by the grant. The draft budget for Fiscal Year 2022-2023 is attached hereto as Exhibit “A.” While the current budget total is subject to change, CBGSA does not anticipate the total budget amount to exceed \$4.16 million.

Water consumption was based on user-reported data from 2021 and was based on evapotranspiration crop factors developed by a Cal Poly Irrigation Training & Research Center (ITRC) as shown in Forms I and M included as Exhibit B. The 2021 water consumption estimate totals 28,000 acre-feet and is used as the basis for the reduction of this fee.

Fee Recommendation

Based on (1) the Fiscal Year 2022-2023 budget and cash flow, and (2) user-reported 2021 water use data, the CBGSA recommends a reduction of the basin-wide groundwater extraction fee to \$38 per acre-foot.

Section 5 – ADMINISTRATION OF FEE

Section 5.1 – Invoices

Invoices and instructions for payment will be sent to water users in May 2022 and will be based on the 2021 water use previously reported by Cuyama extractors. If payments are not received by the due date of June 30, 2022, a past due notice will be mailed in July 2022 and late penalties will apply (see section 6 below).

Section 5.2 – Schedule/Reporting period

The below schedule outlines the groundwater extraction fee process:

| | |
|----------------------|----------------------------------------------------------------|
| May 4, 2022 | Fiscal Year Budget Adopted and Public Hearing to Establish Fee |
| May 13, 2022 | Invoices and Forms are Mailed Out |
| May-June 2022 | Payment Collection Period |
| June 30, 2022 | Payment Due Date |
| July 1, 2022 | Late penalties assessed (10% and then 1% per month) |

SECTION 6 – PENALTIES

Well owners will be charged a 10 percent penalty after the June 30, 2022 due date with an escalation rate of 1 percent for each month late after the initial due date.

| | Type of Use | Units Used |
|----|-------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1 | Chicken Ranches | Avg number of units of 100 chickens on hand for the reporting period. |
| 2 | Livestock Drinking Water | Average number of livestock on hand for the reporting period (drinking water only). Amounts derived from NDSU Extension Service report from July 2015 entitled "Livestock Water Requirements." |
| 3 | Hotels | Total number of rooms. |
| 4 | Office Buildings; including Churches | Total number of offices in building, or offices served. |
| 5 | Restaurants | Total number of seats including seats at the counter, chairs, stools, benches and patio seating. |
| 6 | Service Stations | Number of stations served. |
| 7 | Stores | Square feet of any store, supermarket or shop. Calculation includes employee, customer and maintenance water use. |
| 8 | Trailer Court | Average number of people in the trailer court. |
| 9 | Elementary Schools | Total number of students, faculty, custodians, and maintenance staff multiplied by the number of school days. If there was non-ag watered land input amount in row 11. |
| 10 | Junior & Senior High Schools and Churches | Total number of students, faculty, custodians, and maintenance staff multiplied by the number of school days. If there was non-ag watered land input amount in row 11. For churches, figure total hours and divide by 8 to determine number of "school days." |
| 11 | Watered Land; non-ag | All lands, ornamental plants, shrubs, etc., watered but not qualifying for agricultural rate. |
